

It's the Grey Cup Hop

High-stepping Zena Chivers, Toronto drum majorette who will lead the Grey Cup parade in Vancouver when the east-west football classic is played Saturday, shows Fred Gardiner, chairman of the Toronto metropolitan area council, how to do the Grey Cup Hop. The Toronto contingent, now on its way across Canada, is teaching the Grey Cup Hop to other eager Canadians. It is not reserved for high school or college undergraduates, but is practised by mayors, business tycoons and grandmothers.

Vancouver Bank Robbed

Ex-Football Player Tackles Fugitive

VANCOUVER (CP)—William Antonyshyn, 28, was charged late Tuesday with the afternoon \$400 holdup of a city branch of the Bank of Montreal.

Police said they seized a toy pistol and \$400 in bills from the holdup man who was brought down by bank accountant Tom McNary with a flying tackle.

The former university rugby player rushed after the fleeing bandit and cornered him in an alley behind the bank.

The bandit walked up to a teller's cage in a city branch of the Bank of Montreal and demanded money from Miss Erna Mathiesen.

"I'll shoot if you don't hand it over. Give it to me in 20's," the gunman said.

"I counted out about 10 bills, very slowly," Miss Mathiesen said.

"Mr. McNary and several customers in the bank chased the robber down a nearby lane.

"The man hit him with a piece of pipe," said cafe owner Gam Jang, who joined in the chase.

"Mr. McNary must have hit him, too, because he was lying on the ground when I got there."

Time Bomb Menaces 136 Coeds

AMES, Iowa (UP)—An unexploded dynamite time bomb was found in a 136-coed dormitory at Iowa State college yesterday.

Police said it resembled the type of bomb used to blow up a plane Nov. 1 near Longmont, Colo., killing 44 persons.

Two Resign Posts As Commissioners

SPECIAL TO THE COLONIST

CAMPBELL RIVER—Resignations of two village commissioners—Sidney Waterfield and Carl Thulin—were submitted at a meeting last night of the village commission because they felt they were "being unjustly accused of irregularities."

Only Commissioners John Lambie and Charles Granholm—an insufficient number for a quorum—were present when the resignations were turned in by Village Clerk A. D. Corker.

An unusually large number of spectators was present because of recent rumors about irregularities involving commissioners.

Although it was not a properly constituted meeting because of the lack of a quorum, Commissioner Lambie addressed citizens gathered in the council chamber.

He said Commissioners Thulin and Waterfield had voted as members of the finance committee on Aug. 8 for payment of village accounts to private firms of which they are members.

The accounts called for payment of \$477.56 to Van Isle Logging Equipment, of which Commissioner Waterfield is a partner, and \$50.40 to Pioneer Hardware, of which Commissioner Thulin is a partner.

These accounts were part of a long list approved by the finance committee at the August meeting.

Commissioner Lambie said: "The Municipal Act states that a commissioner may be a shareholder in a corporation having dealings with the board, but no shareholder shall vote as a member of a board of commissioners on any question affecting the corporation."

Mr. Lambie said he had conferred with J. E. Brown, deputy minister of municipal affairs, and had been instructed to "give them the works."

Talks Follow Colonist Warning

Multi-Million Sewer System Planned For Five Unserved Saanich Areas

British Call Bulganin Hypocrite

LONDON (UP)—The British foreign office called Soviet Premier Nikolai Bulganin a hypocrite yesterday in the strongest blast against the Russians since the disappearance of the "Geneva spirit" born at last summer's summit conference.

The foreign office took off its diplomatic kid gloves to deliver a stinging reply to Bulganin's speech in India yesterday accusing the West of backsliding in the search for peace.

Quit UN, Express Urges U.K.

LONDON (Reuters)—The Daily Express says the United Nations is "an agency for stirring up hostility" and calls on Britain to renounce it.

"When will it be realized that internationalism has failed?" this Empire-conscious, right-wing newspaper asks.

The Express, which has a circulation of more than 4,000,000 copies a day, complains that Britain has had enough trouble from the concerted activities of the present members of the organization, but now it is supporting the entry of 18 more countries. Canada is the sponsor of the package move to admit the 18.

"Has Britain not suffered enough from mischief-making at U.N.O. without widening the field? Yet here is Britain asking for more."

The Express says there would be more trouble from the newcomers "for they include Ireland, who will complain about partition, Spain, who will demand Gibraltar, and Ceylon, who will vote with the anti-colonials."

Fifth Column New Threat In Britain

LONDON (Reuters)—Britain has a dedicated Communist fifth column with no standards of honor, no patriotism and no possibility of compromise, Lord Astor told the House of Lords Tuesday night.

The 48-year-old Conservative peer was speaking in a debate on the British diplomats Guy Burgess and Donald Maclean, who vanished beyond the Iron Curtain in 1951.

He said it was "remarkable" that the British people had been so slow in realizing the theory and importance of communism.

Lord Astor said: "We have to recognize that, for the first time since the reign of Queen Elizabeth I, we have a fifth column in this country—a fifth column in the civil service, apparently the scientists and even the church."

Brazil Crisis Pending

RIO DE JANEIRO (AP)—Provisional President Nereu Ramos Tuesday night asked congress to declare a state of siege—modified martial law—throughout Brazil.

In a message delivered to the lawmakers as the country apparently weathered its second grave political crisis in two days, Ramos asked that the state of siege be set for a 30-day period—the maximum allowed by the constitution.

The provisional president's request came just a day after Joao Cafe Filho precipitated the latest crisis by attempting to end his sick leave and return to the presidency.

Santa Busy Practicing for His Big Day

It takes practice to handle a group of reindeer, and Santa has to make sure there'll be no delay in his Christmas Eve delivery. So here he is with a "Gee, Blitzen" and "Whoa, Dancer" as he sits in his sleigh holding the reins and showing all good boys and girls that he intends to visit them soon.—(Central Press Canadian.)

Operation Christmas RCAF To Begin Annual Airlift

LACHINE, Que. (CP)—The RCAF's annual Christmas flights to the Arctic Pangnirtung and Eureka will begin today.

Air transport command headquarters reported Tuesday that preparations and practice parachute drops—started in early November—have been completed.

More than 11,000 pounds of mail, Christmas trees and parcels, fresh rations and emergency equipment will be parachuted to isolated Arctic outposts.

The bundles will be marked by bicycle lights as they hurtle through the continual Arctic winter darkness to lonely men waiting beside blazing oil barrels.

C-119 Flying Boxcars will replace the North Star planes used in previous years, with two squadrons, 435 Edmonton and 436 Lachine making the deliveries.

The Edmonton squadron operating from Resolute bay on Cornwallis island will make 10 parachute drops in the central Arctic, including supplies to five joint United States-Canada weather stations.

One drop will be made at Alert, Canada's most northerly inhabited spot, at the tip of Ellesmere island, just 400 miles from the North Pole.

The flights are being made a month before Christmas to take advantage of full-moon conditions which will not begin again until Christmas Day—too late to get presents to the north in time.

Since most of the detachments are visited only once each year by ship or aircraft, usually during the summer months, the men operating Canada's most northerly outposts aren't too particular about the timing.

Morocco Near Chaos

RABAT, Morocco (UP)—A general strike in Casablanca, mob action, a revolt in the wild Rif mountains and the absence of a central government brought Morocco closer to chaos last night.

More than 400,000 Moroccans staged a general strike in the economic capital of Casablanca. Sullen mobs roamed the streets. All industry was shut down. French troop columns snaked up the bare brown Rif mountains near the Spanish-Moroccan border to put down rebellions by machine gun-toting Berbers.

Nov. 30.

Scalded Baby Died, But Phone Hogs Safe

SACRAMENTO (UP)—A baby lying in the tub with hot water pouring over him.

Mrs. Mansker ran next-door and tried to telephone a doctor. Two women were talking on the party line. One hung up, but the other continued to hold the line. Then, she added, a man came on the line and argued with her.

Finally, the distraught mother ran to another house and summoned aid over a different telephone.

The infant, 18-month-old William Mansker, died.

Mrs. Carroll Mansker, the baby's mother, said she heard the baby scream and rushed into the bathroom to find the scalded baby.

Robbed Goering's Safe ...

EDINBURGH (UP)—A safe-cracker who turned Commando to open Hermann Goering's Luftwaffe headquarters safe in the Second World War was sent back to jail yesterday for practicing his craft in peacetime.

The skill that brought John Ramsey, 50, the praise of Allied intelligence chiefs 10 years ago brought him a 10-year sentence in high court this time.

Ramsey parachuted behind enemy lines many times during the war to blast open safes and lift secret enemy war plans. One of his victims was Goering, the Nazi air chief.

He started his life of crime as a "cat burglar" and progressed to the crowbar and nitroglycerine. His skill at blowing safes was so great that he became renowned in both underworld and police circles.

His arrests brought him a total of 30 years in prison. It was during one of these stretches, in 1942, that police suggested Johnny go straight and use his talents toward winning the war.

During the advance on Rome, Allied leaders wanted a look at secret Axis withdrawal plans. Johnny parachuted behind the lines, cracked the enemy commander's top secret safe and came back with the blueprint.

His real hour of triumph came, however, when he got into Luftwaffe headquarters and cracked Goering's massive safe.

Project Will Equal Present Undertaking

By ALEC MERRIMAN

A new multi-million-dollar Saanich sewer system is being mapped by the municipal council and capital region planning board. The Daily Colonist learned last night.

The proposal—possibly as big as the present 80-mile, \$3,000,000 sewer undertaking—probably will be put to ratepayers next year.

The new system would serve areas beyond those expecting sewer service from the current construction program, and would include Cadboro Bay, Marigold and Colquitz drainage areas, and Rithet park subdivision.

The well-developed urban area immediately north of the existing sewer system in the Shelbourne street district, also would be served.

Coun. Leslie Passmore disclosed that council members had met to discuss the project with planning director Brahm Wiesman about two weeks ago, after a Daily Colonist story warned that "refusal by Central Mortgage and Housing Corporation to grant NHA loans to speculative builders in non-sewered areas is a challenge to Saanich municipality to push forward its sewage program."

Coun. Passmore, who is chairman of the Saanich sewer committee, said "we are quite aware of the problem and know there definitely is need of sewerage disposal service right now."

Coun. Passmore indicated that Saanich would be receptive to a joint sewer expansion program with Greater Victoria.

"There is a possibility some joint action might be desirable to have a complete sewerage review for the whole of the Greater Victoria area, with a view to putting in one central disposal plant," he said.

Mayor Claude Harrison two weeks ago said that, if elected, next year he will ask for a new sewerage disposal system for Victoria as the Clover point plant has outgrown its usefulness.

Expert Sought

Coun. Passmore also disclosed that Saanich is considering hiring a town planning engineer to work with the capital region planning director especially to take care of Saanich subdivisions, sewer plans, roads and other municipal planning.

This suggestion, he said, will be placed before next year's council.

He said it has not yet been decided what types of disposal plants would be used for the suggested projects.

Unless a Greater Victoria system was decided upon Saanich would probably have a unit for each district—handling disposal on a sewage-farm basis.

"Generally speaking there is no great demand for the sludge as fertilizer and probably no profit would be involved," he said.

It has been estimated that small sewage disposal plants would cost from \$50,000 to \$100,000 each, but this would be only for the plant and not the pipelines.

He suggested that the inactive Aid to Municipalities Act with \$6,000,000 capital to lend to municipalities at 2 per cent interest should be reactivated and raised to \$100,000,000 available for loans at 2 per cent to municipalities.

Coun. Passmore said that with regard to "the existing sewer situation, while it is disappointing that the project cannot be completed for the original estimated cost, the fact remains that ratepayers of Saanich are getting a decided asset."

One of Cheapest

"Even with the increased costs it will prove to be one of the cheapest sewer installations in B.C.," he said.

"The benefits that are accruing even now are extensive and obvious," he said. "Property values have increased considerably. Vacant lots, which a few years ago were unsaleable at \$250, are now selling for \$750."

Coun. Passmore pointed out that the "multi-million-dollar asset, the Gorge and Portage Inlet, is again becoming bacteria-free and next summer will see installation of bathing beaches. Thousands of children and adults will again be able to swim in clean, warm salt water."

"The sewer system is going to cost a little more, but I doubt if there are many ratepayers who would prefer to revert to pre-sewer days," Coun. Passmore said.

He said the existing project should be completed by 1957.

The new schemes, he said, will probably be more expensive because of the necessity of installing sewage disposal plants. He said there will be regular consultation with the regional planning board to decide the type and size of sewer project required.

Students Defy Police Clubs

NICOSIA, Cyprus (AP)—Jeering students defied police batons and tear gas and swarmed through the streets of Nicosia Tuesday, tossing stones and hand grenades in another round of anti-British demonstrations.

... Then Tried Glasgow

But it was a different story when he was arrested for cracking a safe in Glasgow recently, taking a puny \$45 in cash and \$4.50 in stamps.

The war hero pleaded for leniency, but the law was firm.

"From your conduct and history," the judge said, "you cannot be trusted to abstain from crime."

ALL ABOARD

With G. E. Mortimore

BUTTON up your overcoat. It's going to be a cold, cold winter. Maybe. Young fellow who does a lot of hunting tells me that the deer have extremely thick hides this year. According to some wise Indians, thick deer hides are a sure sign of rough weather ahead.

I checked with Charles Guiguet, provincial museum biologist, and he said there was no truth to the report at all.

Thickness of hide varies with the individual beast, but there is no evidence that deer can issue long-range forecasts, he says. Who ever saw a deer reading a weather map?

It does look like a rough winter in local politics, though. Judging by the chilly winds of criticism that are whistling around the civic and municipal rafters, the candidates for office had better start growing thick hides at once.

Lady phoned to report she had picked a nosegay of violets and violas outdoors last weekend. She advanced this as proof that Victoria does have a sweet climate, in spite of all the slanderous talk that has been flying about.

I suggested it might simply prove that we breed some tough flowers here.

That brings up another subject. We have hanging flower baskets, and now we are going to get hanging holly baskets. Meanwhile, the streets are ablaze with colorful old candy wrappers, wads of gum in delicate hues, and gay cigaret packages, tossed around by citizens who can't find anywhere to put them.

Isn't it time we had some hanging trash baskets too?

Having a suit cleaned every week is expensive, as fathers of young children soon find out.

It is a common experience for a man to come home in a freshly-cleaned suit and sit down in a pool of condensed milk, or see his young son score a bull's eye on his lapel with a blob of molasses flipped across the table.

Squish! There goes another \$1.25.

A fellow I know has solved this problem by getting a so-called butcher's apron which wraps around and ties in front. It is made of stout blue denim, and it provides a shield against the gooiest traps and missiles.

This man is an insurance agent. He needs to look presentable. It would be awkward for him to find that his sales message was going unheard while the client focused a critical stare on a sunburst of tomato soup above his hip pocket.

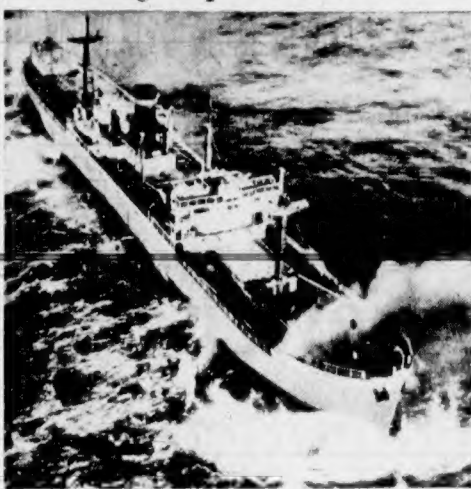

To avoid this danger, he slides into the apron as soon as he gets home.

"Tailors will readily make these aprons for you," he says.

They protect a man's suit against all hazards of a child-infested home—except the hazard of being set on fire.

My friend doesn't have the kind of children who set him on fire. However, a father who wants to be prepared for the worst might buy himself an asbestos overcoat.

Burning Ship Races for Port

Her cargo of coal ablaze, the 7,000-ton Italian collier *Dea Mazzella* makes her way through heavy seas, 150 miles off Newfoundland, toward nearest port. American freighter raced to aid with a doctor and medical supplies for the crew of 35, two of them seriously burned. Ship was rocked by a series of explosions. (Central Press Canadian.)

Bids on Clearing Down \$5,000,000

A \$5,000,000 saving in the grubbing and clearing of the B.C. Power Commission's Upper Campbell lake hydro-electric development appeared certain yesterday after the opening of new tenders for the job.

The bids will be studied by commission engineers before contracts are awarded, but observers believed the lowest tender for each of 11 separate areas would be accepted.

Lowest combined total for the work was \$4,470,703—compared to the low bid of \$9,534,795 when the original tenders were opened in September.

At that time, commission officials said the bid was some \$5,000,000 higher than estimated.

The commission extended the date for the completion of the work by 13 months to Dec. 31, 1957, and new tenders were called. Nine companies bid for work on the project but only two tenders were submitted for the whole job.

Campbell Bennett Ltd., Manix Ltd., and Wilson and Crowe of Vancouver offered to clear the entire site jointly for \$6,510,776.

It was the first two firms which bid \$9,534,795 last September.

The three concerns put in their bid on an "all or none" basis. This stipulation may invalidate the tender.

Commission authorities, as part of the calling for tenders procedure, have the right to accept or reject any bid in any of the 11 areas into which the project is divided.

Supervisory Dairy Group Appointed

Appointment of a group of dairy farmers and government officials to recommend standards to be met by producers of milk in B.C. was announced yesterday by Agriculture Minister Kenneth Kiernan.

The committee, which will meet in Vancouver next week, will have Dr. Duncan MacKenzie, assistant dean of agriculture at UBC, as chairman.

At the same time the minister said the civil service commission has advertised for dairy barn inspectors for Vancouver Island and the lower mainland.

It is hoped that these moves will cure "deplorable conditions" in the B.C. milk industry, mentioned in the Clyde royal commission report.

HAMILTON (CP) — Mandatory jail sentences are being considered for drivers who drive while their licences are under suspension, says Attorney-General Kelo Roberts of Ontario.

Mr. Roberts told Burlington Optimist Club "A jail term would be imposed along with or apart from a monetary fine, and not merely as an alternative to a fine."

Ex-Czech Gets Cheque For Knowledge of U.S.

NEW YORK (UP)—A Czech-born naturalized citizen last night won \$32,000 on the Columbia Broadcasting system's television show, "The \$64,000 Question," by answering difficult questions about American history.

Steven Frolich demonstrated an amazing knowledge of the history of his adopted land by answering questions concerning amendments to the U.S. constitution.

He was asked the dates that each of the last seven amendments was adopted and the subject that each concerned. Frolich not only gave the dates and subjects, he voluntarily named the president under whose administration each was adopted.

Store Shoots With Good Aim

LOUISVILLE, Ky. (AP) — A kitchen stove shot Leroy Carter in the leg. Some bullets from a nearby container fell in the stove and discharged when Carter, 35, fired it up.

Langford Rally To Ponder Formation of Municipality

Langford residents will meet Jack Fuller, will report to the Belmont High School auditorium Thursday at 8 p.m. to decide whether the district should incorporate as a district municipality.

It suggests a budget of \$95,295 for the first year of operation if Langford incorporated and \$139,525 if both districts incorporate.

It claims there need be no increase in taxes following incorporation.

1. That the part of the Langford fire district, bounded by Sooke and Metcalen Roads, the northern end of Langford lake, about the middle of Colwood golf course, and just beyond the new Island highway, should incorporate.

2. That Langford and Colwood fire protection districts incorporate as one district municipality.

3. That the areas be left unorganized and there be no incorporation.

The Langford fire protection district covers about 500 acres and has a population of 3,500. Colwood district would add another 300 acres.

A fact-finding committee headed by Trevor Norman and including William Parker, Aubrey Jenkins, Aubrey Hull and

considered:

1. That the part of the Langford fire district, bounded by Sooke and Metcalen Roads, the northern end of Langford lake, about the middle of Colwood golf course, and just beyond the new Island highway, should incorporate.

2. That Langford and Colwood fire protection districts incorporate as one district municipality.

3. That the areas be left unorganized and there be no incorporation.

The Langford fire protection district covers about 500 acres and has a population of 3,500. Colwood district would add another 300 acres.

A fact-finding committee headed by Trevor Norman and including William Parker, Aubrey Jenkins, Aubrey Hull and

Garden Notes

Scotch Flame Tricky Subject

BY M. V. CHESNUT, F.R.H.S.

I have had several letters recently asking how to plant and grow *Tropaeolum speciosum*, the beautiful scarlet climber sometimes known as the Scotch Flame Flower. It is a tricky subject, and will grow like a weed for one person and not at all for another, apparently for no good reason at all.

In Scotland, where it flourishes on the north walls of crofter's cottages, there is a belief that in order to succeed with this plant, it must come to you as a gift, for if you buy it, it always fails.

Naturally enough, the nurserymen don't go for this superstition, but like so many other old sayings, there is a certain element of truth in it. You see, gift plants are usually lifted from your friend's garden and planted out in your own within an hour or two, so the plant is not out of the ground for any length of time.

LIFT AND REPLANT

This is the real secret of success—lifting and replanting without delay, for the Flame Flower resents lying around and getting its long, slender roots dried out.

The planting site should be prepared before the plant is lifted, choosing a north-facing or—sunless spot, and cool, woody soil. The vine will need some support—a tree or hedge to ramble through, or a trellis against a north wall.

Take out a trench 18 inches deep, and loosen the bottom dirt with a digging fork. Make up a mixture of two parts loam, one part coarse sand, and one

part leaf mould or peat moss, adding a cupful of bone meal per bucketful of soil mixture.

SIX-INCH LAYER

Put down a six-inch layer of this material in the bottom of your trench and firm it gently. Then set in your plants, spacing them eight inches apart. If you are using root cuttings instead of plants, cut them into nine-inch lengths and lay them in the trench. Fill with the prepared soil mixture, but only to a depth of two inches, and leave things as they are until growth commences.

When the young shoots are about an inch above ground, add a little more soil until only the tips are exposed, and continue this way, as growth progresses, until the trench is filled.

LIKE DEPTH

The roots of your Flame Flower will now be well over a foot deep—that is where they like it—but if we had planted them at this depth originally, they would never have grown.

Insert some small, twiggy branches around the young shoots to keep them upright and to lead them to their permanent support, just as you would with sweet pea seedlings, and pretty soon your north wall or sunless hedge will be festooned with sheets of brilliant scarlet, nasturtium-like flowers, which will re-appear every season.

Ontario Sends Seedlings

Some 200 black spruce seedlings from the Fort William, Ont., district tree nursery were presented to Municipal Affairs Minister Wesley Black at the legislature yesterday.

The seedlings, a gift of the Ontario forestry department, were brought back to Victoria by the Oak Bay Drakes after their 38-0 loss to Fort William Redskins in the western inter-mediate football final.

The team took 200 Douglas fir seedlings with them when they left Victoria and presented them to the Ontario department of lands and forests on behalf of the B.C. department.

Friendly Arms of Red Bear Held Wide Open for India

NANGAL, India (Reuters) — Soviet Communist party chief Nikita Khrushchev Tuesday indignantly repudiated the idea that he and Premier Nikolai Bulganin are visiting India for any other purpose than to promote friendship between the two countries.

The Communist party leader spoke angrily against radio and press comments in the West casting doubts on the real purpose of the Soviet leaders' two-week good-will visit to India—their first to a non-Communist country.

"The press and leaders of some of these countries have warned you: 'Bulganin and Khrushchev are clever people—deal with them cleverly,'" he said. "According to what you do so. If you want our help, we are trying to help you. You want to build electric (power) stations. You want our technical know-how. Tell us, why don't you do so; we and we will help you."

"If you want to get training in Soviet friendship, we are quite the Soviet Union—if you want to send people there, by all means clear about this."

Khrushchev told the gathering of do so . . . if this is cleverness, and I am very happy that you is Indo-Soviet friendship."

Gagliardi Details \$37,000,000 Plan For Roads, Bridges

Highways Minister P. A. Gagliardi yesterday announced details of a \$37,000,000 road and bridge program now in progress in B.C.

He said that 100 miles of construction contracts let in the past two months should provide ample winter employment, except for a week or two at Christmas.

Contract to finish the final stretch of road between Horse shoe bay and Britannia Beach—a distance of 3½ miles—has been awarded to Emil Anderson of Vancouver for \$608,532.

First contract for the new 50-mile route over the Cascades has gone to P. F. Law Construction Co., which will build the Christina creek section of the southern trans-provincial highway for \$674,271.

Five different gravel crush-

ing contracts totalling \$475,000 have also been awarded, the minister said.

Total mileage of the Squamish road is now 19.85, built at a cost of \$6,000,000.

Mr. Gagliardi added that work had started, or would start shortly, on nine bridges throughout B.C.

The bridges, together with the estimated cost, were:

Vancouver Second Narrows, \$16,000,000; Kelowna, \$6,000,000; Nelson, \$3,500,000; Harrison, \$1,000,000; Pitt River, \$1,000,000; Sunset creek, \$33,000; Salmon and Sheep creek bridges, \$98,000; Robertson river, \$35,000.

Tenders for the substructure at Second Narrows, expected to cost about \$2,000,000, will be called Dec. 2 while steel bids for Nelson, at a cost of about \$1,500,000, would be called shortly, Mr. Gagliardi said.

Sudbury, Tow Bucking Gale

Sudbury, with the disabled Greek freighter Makedonia in tow for the fourth day out of Adak harbor, was reported bucking an easterly gale and blizzard last night in stormy Bering sea at a point about 12 miles north of Dutch Harbor on Unalaska island.

Capt. Harley Blagborne told the tug's owners, Island Tug & Barge Ltd., last night that he was making about six knots through heavy seas and said he expects to get back to the North Pacific today.

McGrath's Stellar Dancing Sparks Winnipeg Ballet

An interested onlooker at a program of the rebuilt Royal Winnipeg Ballet at the Royal last night.

Grath has become a superb ballet dancer and a "contribution to the arts of which this city can be proud."

This impression was not missed by the near-capacity audience which enjoyed the

VISIT TOO SHORT

The group's all-too-short visit ends tonight with "Parable," to the music of Bach, the "Don Quixote" pas de deux, and "Devil In The Village," a Yugoslav ballet of two acts.

Still struggling to overcome the setbacks caused by fire a year ago, the company did not take the easy way out by presenting well-known works.

First was "Clasien," an intricate modern classical ballet enlivened by use of Latin American songs.

MOST EFFECTIVE

Most effective were McGrath and his wife, Caru Carter, in the tango, sparkling Marina Katronis in the waltz and supple Marilyn Young in a rhythmic rumba.

Attention centred mainly on McGrath in the "Bluebird" pas de deux from Tchaikovsky's

"Sleeping Beauty," as he met great demands. Miss Carter's delicate grace was much admired.

Young Paddy McIntyre made a fiendish devil in "Devil In the Village," while McGrath showed his versatility with a brilliant performance of a type of dancing different from the classical form.

Miss Katronis could not have been more tempting—as the devil's mistress and Jill Alis as the heroine did her difficult task well. In addition, Ted Patterson's brief role as the dull suitor was a stand out.

"Devil" ended in a blaze of color, and the company merited its three curtain calls.

Youth Jailed In Ball-Bat Killing Case

VANCOUVER (CP)—Peter Murray Williams, 16, pleaded guilty Tuesday to a reduced charge of manslaughter in the slaying of his 21-year-old brother.

Mr. Justice J. O. Wilson in assize court sentenced the youth to two years less a day and there after an indeterminate period of two years less a day.

Williams admitted the baseball-bat killing of his brother David in suburban North Vancouver Oct. 12.

Mr. Justice Wilson told Williams: "I will send you to a place where you will have a chance to get out of your mind the thoughts which induced you to do what you did and become a useful member of society."

"If you co-operate, you almost surely will never be called on to serve that second term."

Mr. Justice Wilson said the New Haven Borstal in suburban Burnaby was "a place where there is hope."

Two More Seek Seats

New candidates who yesterday entered the lists for city council were Ald. W. F. Pinfold, now acting mayor and finance committee chairman, and Capt. D. J. Proudfoot, former Liberal MLA for Victoria.

The new entries brought the number of contestants for four council seats to 11. Three men are seeking the office of mayor.

No Red Flights

WASHINGTON (AP)—Two Eskimos who scout for the Alaska National Guard about 30 miles from the Russian frontier report no Soviet air or surface activity in the area since last June, when MIGs shot down a United States Navy Neptune patrol bomber. The two scouts, Sgt. Willis Walunga and Sgt. L. C. Clifford Ikroknok, are here to receive navy certificates of commendation for the parts they played in rescuing 11 crew members of the Neptune.

Read how Mrs. W. Beaucage found relief from constipation:

"After using a home remedy and costly medicines to keep regular, I tried Kellogg's All-Bran. Haven't been bothered with irregularity since." From Mrs. Wilfred Beaucage, of Sherbrooke, Quebec. The great advantage of All-Bran is that it corrects the cause of irregularity due to insufficient bulk. All-Bran, made from the whole wheat kernel, supplies natural food bulk. It is a good-tasting cereal that has helped millions. All-Bran will give gentle, effective relief from constipation within 10 days or double your money back. Get Kellogg's, the one and only All-Bran. Kellogg's London, Ont.

Chrysler Windsor 4 Door Sedan

The new 1956 CHRYSLER WINDSOR

No need to envy the owner of a luxurious, new 1956 Chrysler! You can so easily be one!

You'll travel in style in this sleek new car. There's excitement in its gleaming length and sparkling grille. There's new flair in the high sweep of its rear fenders . . . in low, sloping hood and swept-back windshield.

You'll enjoy the easy assurance of its new Spitfire V-8 engine. It speaks so softly you scarcely hear it idling. But tip your toe down, and you command the

road with tremendous V-8 flashing horsepower!

You'll discover an entirely new kind of driving ease in the 1956 Chrysler. With new push-button PowerFlite automatic transmission, you select your driving range as easily as you tune your radio.

Yet with all this "dream car" luxury, there's no price penalty for prestige—when you drive this new Chrysler Windsor. Check your dealer and see—the move to Chrysler is a smart one to make!

Rebuttal Submitted On Stevenson Issue

Since Rev. William Hills has seen fit to use my name in his regular column of your paper, I would ask your kind indulgence to allow me to submit a few sentences in reply.

The reverend gentleman has been wise enough to step aside from the main issue that started

Please note that the marriages in question were solemnized in church, the regular minister was on his deathbed, and notices of the events were duly sent to the Bishop promptly within the prescribed period of 14 days.

The reverend gentleman contends that a church is not a public building, while I consider that any building that is financed by public subscription, and regularly used by the public for public worship, is a public building. However, that doesn't affect the issue, and my other contentions are confirmed by the regulation quoted above.

"No marriage shall be solemnized elsewhere than in church, except for some weighty and sufficient reason to the contrary. Notification of such marriages shall be sent to the Bishop, together with the reason therefor within 14 days of the celebration of such marriages."

Red Army Reorganizes

BONN (AP) — Red Army divisions in East Germany have been reorganized for atomic warfare, Western intelligence sources say. Since the summer "summit" conference in Geneva the Soviet Army has been modernized with new equipment from Russia, they said, with the 22 army divisions in the Soviet zone streamlined to an average strength of 7,000 instead of 10,000 men. The 66,000 troops saved were kept as reserves. All units were equipped with armored vehicles and the eight armored divisions received the last of 1,000 new T-54 tanks from Russia.

Russian Struggle

Army, Police War for Power

By WILLIAM L. RYAN
AP Foreign News Analyst

The annual batch of execution comes a month early this year. But it offers one explanation why Soviet Communist boss Nikita S. Khrushchev and Premier Nikolai Bulganin can afford to be away from the Soviet Union for such long periods without fear of a coup at home.

The announcements tend to confirm an alliance between Khrushchev and the Soviet army that is holding the present post-Stalin "collective leadership" arrangement intact.

There is no question the army is continuing to move in steadily on the old secret police moulded into a potent political force by Joseph Stalin and his police boss, Lavrenty P. Beria. All indications are that the army, growing in influence and power, has been exerting increasing control over the security forces and providing the balance of power which prevents a new struggle for one-man dictatorial supremacy in Moscow.

BERIA FIRST TO GO

There is no reason to believe that the men listed as executed in Tiflis (Tbilisi), were only recently sent to their doom.

Beria headed the first batch of Stalin's police leaders executed in 1953. The announcement was made in September of that year, although

the executions more probably took place in the previous month. In December, 1945, Moscow announced the execution of four other associates. The next announcement had been expected in December of this year.

The executions—or at least the announcement of them—appear to have been spaced out to cushion the Soviet public against the impact and avoid the appearance of a widespread blood purge. But it is likely that not this handful of men but thousands and even tens of thousands of security men have been put out of the way, either by physical liquidation or banishment, in a widespread cleanup of the dangerous secret police system which would represent vast power in the hands of any one man.

Of the five listed today, two are identifiable. The man listed as Rukhadze is the Georgian republic's former minister of internal security.

The man listed as Tsereteli apparently is Shalva Dzarovich Tsereteli, a former lieutenant general in the security forces.

Area Police Pledge Support For Accident-Free 24 Hours

Police chiefs in this area once in realizing the aim of the attention in driving and walking, pledged support yesterday for one accident-free 24 hours on day without death or disaster striking on the highways.

Public co-operation, said RCMP Assistant Commissioner C. E. Rivett-Carnac, is of first importance, therefore, in reducing the serious accident toll, for motorists and pedestrians to observe the letter and spirit of all traffic regulations. They must be courteous and give full

W. J. Fortune Given Post

BRENTWOOD — William J. Fortune was appointed yesterday as secretary and water commissioner for the Brentwood water district.

Mr. Fortune succeeds Ernest Lee, recently appointed building inspector for the municipality of Central Saanich.

The water district faces suspension of service from its source, Elk Lake, by the department of transport. Negotiations, necessarily slow, are now under way to assure a continued source of water for Brentwood.

Bandit Queen Captured

Love of Children
Maggie's Downfall

CHICAGO (CP)—Shapely Maggie O'Connor, her reign as a bandit queen at an end, defied police yesterday and kept silent on details of her life of crime.

The pretty mother of three children, wanted for questioning in more than 100 robberies and slayings, shouted defiance at witnesses who identified her at a police showup.

Maggie, 30, was arrested late last night as she attempted to visit her children, who are living here with her sister.

Though chuckling how she fooled police for many months, Maggie refused to discuss details of robberies.

"AIN'T GONNA BEEF," she told Sgt. Charles Fitzgerald, who arrested her. "But I ain't gonna beef on nobody."

Fitzgerald had tried to loosen her tongue by reminding Maggie that male members of her gang had "squealed" on her.

Police said she refused to admit any of the long string of robberies credited to her and her gang.

Northerners Protest
Crown 'Profiteering'

EDMONTON (CP)—The men representing Canada's northern frontier, appealed for federal aid Tuesday to construct a network of roads and rail lines and help unlock the untold wealth of the sub-Arctic hinterland.

Spokesmen for one community of the famed gold-mining town of Yellowknife charged that the federal air

future. The commissioners were told of "poor" postal and C.B.C. her City forestry consultant; aid Tuesday to construct a network of roads and rail lines and help unlock the untold wealth of the sub-Arctic hinterland.

But all agreed that the most urgent need is for more transportation facilities and a reduction of high shipping charges.

They were virtually of one mind

that a federal crown company in the north is making "fantastic profits" on water shipping.

TRANSPORTATION URGENT
The five-man royal commission, in the midst of a three-week western tour, set the day aside to hear how the north feels about Canada's economic

transportation build a 400-mile, \$50,000,000 rail line linking the Northern Alberta Railway at Grimshaw with the lead-zinc deposits at Pine Point on the south shore of Great Slave lake.

Commission chairman Walter Gordon questioned whether the rail line would help mineral development. Usually private enterprise found ways of bringing the minerals to market if the demand was strong enough.

R. G. Robertson, Northwest Territories commissioner, said aside from the advantages of speeding up northern development, the rail line would lead to jobs for the Indians and Eskimos in an area where their main line of pursuit — fur-trapping — is gradually declining.

Mr. Gordon observed that if markets are unable to absorb all the lead and zinc New Brunswick and the northland can produce, the government would have to decide which area to develop first. He intimated it would be unnecessary to develop both.

Besides Mr. Gordon, commission members are A. E. Grauer, president of the British Columbia Electric Co.; Dr. Andrew Stewart, head of the University

of Alberta; Omer Lussier, Quebec City forestry consultant; and Dr. Raymond Gushue, president of Newfoundland's Memorial University.

Mr. Grauer said Russia's controls resources development through arbitrary allocation of priorities. Would Mr. Robertson suggest Canada take similar steps?

They were virtually of one mind

The five-man royal commission, in the midst of a three-week western tour, set the day aside to hear how the north feels about Canada's economic

transportation build a 400-mile, \$50,000,000 rail line linking the Northern Alberta Railway at Grimshaw with the lead-zinc deposits at Pine Point on the south shore of Great Slave lake.

Commission chairman Walter Gordon questioned whether the rail line would help mineral development. Usually private enterprise found ways of bringing the minerals to market if the demand was strong enough.

R. G. Robertson, Northwest Territories commissioner, said aside from the advantages of speeding up northern development, the rail line would lead to jobs for the Indians and Eskimos in an area where their main line of pursuit — fur-trapping — is gradually declining.

Mr. Gordon observed that if markets are unable to absorb all the lead and zinc New Brunswick and the northland can produce, the government would have to decide which area to develop first. He intimated it would be unnecessary to develop both.

Besides Mr. Gordon, commission members are A. E. Grauer, president of the British Columbia Electric Co.; Dr. Andrew Stewart, head of the University

of Alberta; Omer Lussier, Quebec City forestry consultant; and Dr. Raymond Gushue, president of Newfoundland's Memorial University.

Mr. Grauer said Russia's controls resources development through arbitrary allocation of priorities. Would Mr. Robertson suggest Canada take similar steps?

They were virtually of one mind

that a federal crown company in the north is making "fantastic profits" on water shipping.

Crawled for Aid After Accident, Boy in Hospital

ERRINGTON — Eddie Barnes, 14, is in Nanaimo hospital after being struck by a car on the Island Highway south of Parksville Saturday night.

RCMP declined to say whether a hit-and-run car is involved.

The boy was too confused and dazed to realize what had happened.

He managed to drag himself to a nearby garage. He was taken home and a doctor was called, and he was later removed to hospital at Nanaimo.

CHEMUNUS — Zip Jackson, re-elected president of Canadian Legion Branch 191, will start his second term in January.

Other officers elected are: Frank Dyer, first vice-president; James Millmore, second vice-president; Harry Otto, sergeant-at-arms; F. Deacon, C. Simmonds, R. Duncan, Al Beggs and Wilf Vye, two-year terms on the executive committee.

Executive members with one year still to serve are T. M. Cook, T. Motherwell and R. Wakelin.

Officers will be installed in January.

Water Supply Safe in Flood

PORT ALBERNI — Tests for bacteriological content carried on during recent storms showed that Port Alberni's water supply was not seriously affected by flood conditions. Findings were contained in a report of the Central Vancouver Island Health Unit presented to council this week by Ald. Norman Odgers.

Council was also informed that children throughout School District 70 had been weighed and measured and that physical examination of Grade 3 students is in progress. The immunization program has been started in nearly all schools.

Public health nurses of the staff made 162 visits to homes during the past month.

CAMPBELL RIVER — The Campbell River branch of the Red Cross will hold its annual blood donor clinic at the high school auditorium from 2 to 4:30 p.m. and from 6 to 9 p.m., Nov. 29. Objective is 400 pints.

PARKSVILLE — A benefit social evening will be held by residents of Parksville district at 8 p.m. tomorrow, in aid of Capt. Tom W. Taylor, who recently lost his home and all personal effects in a fire.

CAMPBELL RIVER — A total of \$164.65 was cleared by the Campbell River branch of the Canadian Arthritis and Rheumatism Society in a tag-day Saturday. A house-to-house canvass brought in an additional \$190.91.

Branch president Mrs. J. Thompson said members have agreed to support other branches in an appeal to the University of British Columbia for establishment of a physiotherapy faculty.

PARKSVILLE — Some of the best amateur talent in Vancouver will be on stage at Parksville Junior high school auditorium when the Junior Stars of Tomorrow appear here at 8 p.m. Saturday.

The show includes dancing, singing and acrobatic acts and is staged under direction of Geneva Calganis Cameron and Mary Mark.

Sponsors are Al Par Shrine Club. Proceeds will go to Shrine hospitals and other crippled children's funds.

A report at the meeting showed that timber on a new subdivision at the north of the city had netted \$3,742.42 for the corporation. It was sold by tender on a stumpage basis, with council estimating returns at \$2,500.

A program of varied entertainment is planned for the event which will be held at Parksville parish hall. Donations of either cash or household effects are being sought.

LAKE COWICHAN — I. W. Rush was re-elected president of Canadian Legion Branch 210 at a recent meeting here. Other officers elected were Percy Berry, first vice-president; Don Berry, second vice-president; Ross Farrell, sergeant-at-arms; Stan Whiteside, secretary; J. C. Bailey, treasurer.

Officers will be installed Jan. 28.

GREAT CATHEDRAL — The cathedral at La Paz, Bolivia, seating 12,000 worshippers, was begun in 1835 and dedicated in 1933.

Telephones Cut Off By Truck

PORT ALBERNI — Some 700 telephones in the district north of Bute street were knocked out of commission as the result of a truck crashing into a B.C. Telephone Co. pole at Third and Bute Monday afternoon.

The crash snapped the pole, bearing 400 pairs of wires. Repairs are expected to last at least 36 hours.

Seek Nanaimo Hall

First Step Taken For Civic Centre

NANAIMO — The parks board has taken first steps toward forming a Nanaimo community centre. Commissioners decided to apply to the school board for a \$6,000 hall.

The parks board wants the school board to donate the hall standing in the Brechin school yard for use as a community

centre at Mansfield park. If the application for the building is successful the parks board will pay for moving the hall.

The school board will open tenders for disposal of the hall shortly. Brechin Community Club wrote to the parks board, requesting the hall be placed in Mansfield park if its tender was accepted.

Park commissioners feel it would be better to have the hall donated to them because a club could not own a hall on parks property.

Mrs. Helen Beevor-Potts, one of the commissioners, stated she thought the parks board had a good case as the school board has had the use of parks board buildings in the past.

Chairman of the parks board, Ed Blackburn, stated: "I think it is the first step towards a community centre."

Postman Rites Set Thursday

DUNCAN — George Raeburn, 75, former rural mail carrier, in the Cowichan district for 23 years, died suddenly at his home on Price Place road early Monday.

Born in Fyfe, Scotland, he came to Duncan in 1920.

For the last three years, since retirement from the rural mail route, he has done mail clearing work from postal boxes in the city district.

Surviving are his wife, Anne; one son, Alexander; two daughters, Mrs. J. W. Haslett, Vancouver, and Mrs. W. Hamm, Edmonton, Alta.

Funeral services will be held from First funeral chapel Thursday at 2 p.m. Rev. W. F. Burns officiating. Interment will be in Mountain View Cemetery.

NANAIMO — New street lights are being installed from the Pearson bridge along the new Island Highway route to St. George street. Ald. Bill McGregor said yesterday. When installation of the lights is completed the road will be the best lighted one in Nanaimo.

Woman Sent to Jail On Impaired Charge

NANAIMO — Mrs. Ruth Clara Trautman was sentenced to 14 days in jail yesterday by Magistrate E. D. Strongtharm. She was convicted of a second offence of driving while her ability was impaired by alcohol.

Accused was also found guilty on a charge of driving without a driver's licence. She was fined \$25 and \$3 costs on the count.

Ron McIsaac defended the accused. He maintained Mrs. Trautman should have been charged with being an incompetent driver not an impaired one.

Hugh Heath, Crown counsel, argued that evidence had been produced to show the accused did have the ability to drive.

The offence occurred Oct. 31 in Nanaimo. The case had been remanded while the accused obtained counsel. Police told court that the accused drove in an erratic manner and failed to stop when flagged down by a policeman. They said that when the accused did stop she stumbled out onto the roadway.

The court warned the accused that if she appeared again on a similar charge she would be liable to a maximum sentence of one year.

Thetis PTA Holds Fund-Raising Sale

THETIS ISLAND — A "white elephant" auction to raise money for the children's Christmas party was held Monday night by the Thetis Island PTA.

Move Cars Or We Will Says Council

PORT ALBERNI — Residents will be reminded by council that, according to a civic by-law, the works department has the power to remove parked cars which interfere with snow plowing, and that owners of the cars may be charged with the cost of moving the vehicles.

Contest in Vancouver

Nanaimo Beauty To Get Send-Off

NANAIMO — A civic send-off will be given Glenda Sjoberg, Nanaimo's Nanaimo, Miss PNE and Miss B.C. beauty queen when she leaves this morning for Grey-Cup festivities in Vancouver.

Gray Cup honors.

The send-off is scheduled for 10:45 a.m. Miss Sjoberg will leave from the CPR terminal at 11 a.m., accompanied by Mrs. Sid Wharton.

On hand to wish her luck will be Mayor George Muir, E. L. Hodson, president of the Chamber of Commerce, and Frank Ney, president of the Junior Chamber of Commerce.

Nanaimo News

Women's Group Fails To Choose President

NANAIMO — For the second year in a row delegates of Nanaimo women's organizations, comprising the Local Council of J. Espitalier, Ray Knight, William Low, Bob Fuller and Commodore Noel Thompson, Shelby Saunders and Chester W. Swanson.

Other officers elected at the council's annual meeting Monday were Mrs. E. D. Strongtharm, first vice-president; Mrs. J. S. Dobinson, second vice-president; Mrs. Ivor Kaardal, corresponding secretary; Mrs. H. N. Freeman, recording secretary; Mrs. J. Lyle, archivist.

NANAIMO — Mrs. Marion Ricker, vice-chairman of District 68 school board, Nanaimo, has announced her intention of seeking re-election to the board for a further two-year term. Mrs. Ricker is chairman of the Vancouver Island section of the B.C. School Trustees' Association.

NANAIMO — Princess Anne school students have had a forced holiday the last two days because of oil furnace operation difficulties, thought to be due to sluggish flow of bunker oil used for heating the school.

NANAIMO — James Allan has been re-elected commodore of Nanaimo Yacht Club. Harold Snider is vice-president; Gordon Blunt, rear commodore; Noel Thompson, fleet captain; Dr. Larry Giovando, M.L.A., fleet surgeon; George Wilson, secretary.

SUNDAY RIVALS MATCHED—Provided the weather does not play tricks again, the stage is all set for the second challenge match between Royal Colwood and the Rest of Victoria golfers at Victoria Golf Club Sunday.

Dr. George Bigelow of the Rest and Vic Painter of Royal Colwood are containing the two teams and they have deployed

The order of plays is:
Royal Colwood The Rest

FOURSOMES
W. McColl and Ted Colgate vs. Dr. G. Bigelow and H. Morrison.
V. Painter and J. Robertson vs. R. Fleming and J. Merriman.
G. Andrews and V. Clarkson vs. R. Morrison and F. Scroggs.
W. Court and H. Lineham vs. L. Carroll and G. Verley.

SINGLES
McColl vs. Fleming. Robertson vs. H. Morrison.
G. Andrews vs. R. Morrison. Painter vs. Bigelow.
Colgate vs. Scroggs. Clarkson vs. Merriman.
Court vs. Carroll. Lineham vs. Verley.

An interesting feature of the rival strategy is that while Dr. Bigelow has retained four city buttons partnerships for the foursomes, Vic Painter has switched about his men for the Colwood partnerships.

This is partly due, of course, to the absence of Laurie Kerr, which may prove a grave handicap to the challengers.

Colwood's captain has taken the view, possibly, that there's a world of difference between button games, which are four ballers, and the two-ball foursomes that will prevail Sunday.

It may be that Painter has made four very subtle blends that might upset the established partnerships of the Rest.

Leading the Rest foursomes, by virtue of their being reigning button holders, are Bigelow and Hugh Morrison. They oppose a new combine of McColl and Colgate, and this may prove an exceedingly close match.

In the three other foursomes the odds would appear slightly in favor of the Rest—Fleming and Merriman make just as good a foursomes combine as they do when playing together in four-ball games, and Verley and Carroll may pull through with their advantage in length-over Court and Lineham.

If Andrews is in top form his partnership with Clarkson could make it difficult for the Uplands pair Morrison and Scroggs, but my idea is that the Rest will retire for lunch with a 3-1 advantage.

The match in the singles brings together Bill McColl and Bob Fleming, and because the Colwood champion has two recent victories over his Gorge Vale opponent he will be fancied to give his team a winning start. However, Fleming has been playing better recently and he has probably as good a chance of toppling the Island's most successful player of 1955 as anyone.

Wins for the Rest might come from the two Morrisons, Merriman, Carroll and Verley, while the match between the rival captains, Painter and Bigelow, should be a toss-up. In the other game there should be little between Scroggs and Colgate.

The odds this time certainly look in favor of the Rest. The increase in the number of players from six to eight undoubtedly helps the Rest with their bigger field of choice. In addition, Colwood will feel keenly the loss of Kerr, who must be rated at least No. 2 on their side.

First foursome will start at 9 a.m., and the singles will begin as soon after 12 noon as possible.

REMEMBER DEC. 27—Plans are well in hand for The Daily Colonist Christmas Tree tournament, which this year will be open to both sexes.

As Christmas Day is being celebrated on Monday, Dec. 26, the Christmas Tree competition will be played Tuesday, Dec. 27. The men will play at Victoria Golf Club and the ladies at Uplands.

There will be four chief awards, gross and net, both for men and ladies.

HONOR FOR WALTER GRAVILIN—A well-deserved honor has befallen Walter Gravilin, Uplands professional. At the club's annual meeting the other day, the members elected Walter as an honorary member of the club.

Walter has been associated with Uplands right since its inception in 1922. He went with some members of the United Services course at Macaulay Point when overcrowding there drove them into the Uplands pastures, and he has been the professional there ever since.

Thirty-three years in the one job is good going, and there must be hundreds of Victoria people who are moulded to the Gravilin swing.

GOLFING BROTHERS' VISIT—Two crack golfers at present in Victoria are Art and Harry Donaldson. Art is the former professional of the Golf and Country Club of Calgary, and he is at present working his trade as a boilermaker at the dockyard.

Harry is one of Trail's leading amateurs, playing off 2, and he is on several months' leave of absence from Cominco.

Two big fellows standing over six feet and around the 200-pound mark, they have been playing a number of games at Gorge Vale along with Bobby Fleming.

By BRUCE LEVETT
VANCOUVER (CP)—Grey Cup fever, a malady usually confined to the Rockies, is beginning to take hold on the west coast with all the color and confusion of a circus CPR.

While it has been known since from Edmonton pulls in and an last spring that the Canadian football extra-coast of Eskimo fans arrives here Nov. 26, west coast fans are only now being swept up in a wave of enthusiasm unparalleled for any Canadian sports event.

KEEP LIGHTS BURNING
People who hadn't seen a Canadian football game before two years ago are loud in their protests over how the tickets are being allocated.

Mayor Fred Howe, long associated with hockey and lacrosse, issued an appeal to all downtown merchants to keep all the lights possible burning in their stores Thursday, Friday and Saturday nights to add additional lustre to Canada's brightest-lighted city.

Everyone from Montreal west has having a crack at forecasting the weather for "G-Day."

A city clothier, with an undisclosed source of supply, is offering a Grey Cup ticket with each suit or topcoat purchased.

Hotels are moving the more fragile pieces of furniture back into the darkest corners of the lobby.

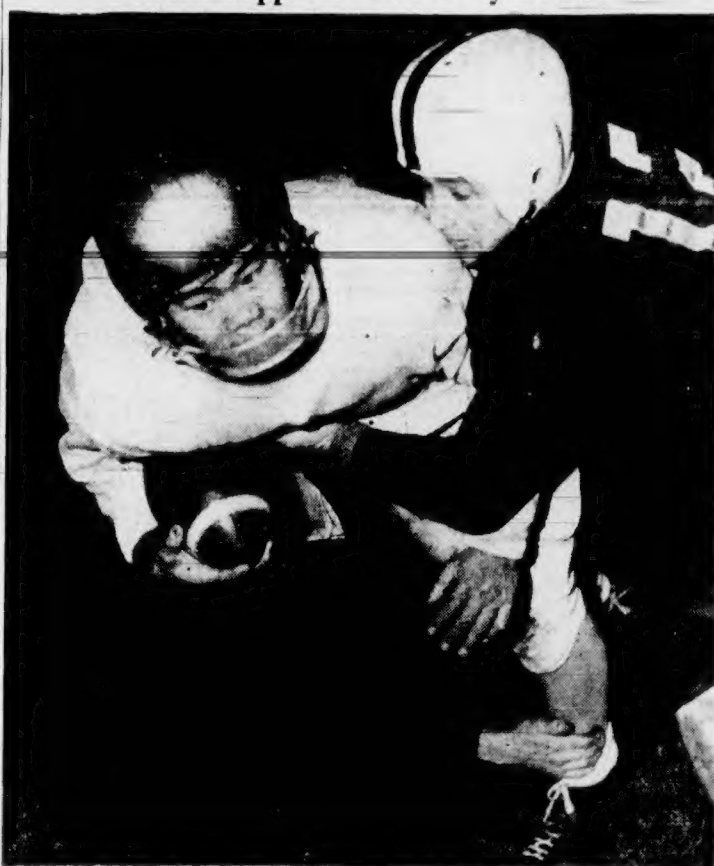

Urban Nelson, newly-appointed anti-litter co-ordinator, said he was "sick at heart" to learn that parade planners had distributed 200 pounds of confetti to downtown office buildings to be tossed down along the route of the parade next Saturday.

But he added he would suspend his anti-litter operations for the day and might even toss a little confetti himself.

Already the first fans are beginning to arrive from other strongholds of football.

A special coach carrying Edmonton Eskimo supporters pulled in at 1:45 p.m. PRT at the Canadian National Railway yards.

China Clipper Grounded by Drakes

Oak Bay Drakes, Victoria intermediate Canadian football champions and defeated finalists in the Western Canada playoff, found the opposition rather rugged when they scrimmaged with the Grey Cup champion Edmonton Eskimos at Royal Athletic park yesterday afternoon. It was a new and thrilling experience for most of the

Victorians and, although there was little actual tackling, the Drakes had a few rough moments. Here Edmonton's famed China Clipper, Normie Kwong, is stopped by Drake tacklers Jerry Hill, right, and George Wilson, who is trying to hold an ankle while the Clipper runs through a play at half speed.

Etcheverry Biggest Problem As Eskimos Ponder Strategy

BY IAN GLENDAY

Edmonton Eskimos, hoping to become the only western Canadian team in history to win the Grey Cup two straight years, should go into this year's classic on Saturday well prepared to cope with the powerful Montreal Alouettes.

Club officials have a wealth of information on the eastern Canadian champions and through workouts, talks and by showing movies of Alouette games, hope to impart the knowledge to the players in an effort to upset the Al's tactics.

SCOUTED FINAL

The man behind the all-important pre-game strategy is former Eskimo lineman Eagle Keys. Coach Frank (Pop) Iyengar Keys to scout the eastern final between Montreal and Toronto and from his reports, Iyengar hopes to pattern a defence to offset the potent aerial attack of the Al's.

"Just how to stop the Al's is a problem," the soft-spoken Keys said yesterday as he lounged in his Empress Hotel room.

"That Montreal club is stronger in every department than the one we beat last year in the cup final," he said.

"Pat Abbruzzi has taken up where Alex Webster left off. He's a hard-driving runner who is counted upon heavily for those short gains. And don't forget, they've got Joey Pal, Hal Patterson, who can do everything well, J. C. Caroline and quarter Sam Etcheverry."

GREAT REPLACEMENT

Abbruzzi, the rookie from Rhode Island who won the Big Four scoring title this season and has the inside track in the voting for Canada's outstanding football player, has proven a great replacement for Webster, last year's Big Four scoring champion who has joined the pro New York Giants.

Etcheverry, the Al's flinging quarterback who can toss long or short passes with equal accuracy, poses as Eskimos' biggest threat.

"We've got to get through to him," Keys said. "We've got to stop him before he throws. It can be done. Argos were rushing him in the first half and not one of his first six passes was completed."

"They've got a well-balanced ball club," he continued. "Etcheverry's passing is always a threat but they've got power on the ground and effectively make use of a flanker."

WORK CUT OUT

"We've got our work cut out for us," he concluded.

Ivy, not one to make predictions, said earlier in the day: "I hear Walker (Montreal coach 'Peahead' Walker) is worried over his injuries. That doesn't mean a thing. Those injured players are probably the ones who will score touchdowns and we'll have to watch them just the same."

But while the Alouettes are reported to be stronger than last season, western observers feel that the Eskimos are also an improved club. They lost only two games, walloped Winnipeg Blue Bombers in two straight games in the WIFU final, and appear to be at the peak and in fine spirits for Saturday's game.

In Jackie Parker the Eskies have a quarterback who can direct a smooth ground attack and his deception is a boon to Edmonton's option plays off the split-T. The double fullback combination of Johnny Bright and Normie Kwong, who both had great seasons, is one of the chief weapons of the Esk defence. Parker also throws a dangerous pass and he has been having plenty of target practice at the Eskimo workouts, which may indicate that the Edmonton club will give the Al's a taste of their own medicine.

STILL UNDECIDED

Club officials are still undecided about giant centre and defensive linebacker Kurt Burris, a WIFU all-star this season. Burris tested his injured knee at a sweat-suit signal drill Tuesday and said: "I jogged pretty good but just in a straight line. I didn't want to take a chance of trying to cut."

Club officials may know on Friday, when the Eskimos leave for Vancouver and a light workout at Empire stadium, whether Burris will be in the lineup. The 205-pounder from Muskogee, Oklahoma, may be one of the two imports Ivy must drop to comply with the Grey Cup regulation of 10 imports.

The players from whom Ivy will decide his 10 imports are: Parker, from Knoxville, Tenn.; Miles, Washington, D.C.; Bright, Fort Wayne, Indiana; Frank Anderson, Oklahoma City; Earl Lindley, Logan, Utah; Bob Heydenfeldt, Pasadena, Calif.; Don Dean, Central City, Nebraska; Bob Dean, Pittsburgh, Penn.; Dale Meiner, Lone Wolf, Okla.; Art Walker, South Haven, Mich.; Burris, and Rupe Andrews, ex-California Stampeder lineman.

The Eskimos went through another workout yesterday afternoon along with Oak Bay Drakes, western Canada intermediate football finalists.

Drake tackle Ed Bouffe said after the light scrimmage "they're

big, tough boys and their blocking is something terrific. I'd hate to have to play a whole season against them. I don't know if I'd last."

Lauder Victory Skein Reaches Six Games

By JIM TANG

VANCOUVER—Gerry Lauder of Victoria continued to lead the way for Vancouver Island rinks after three days of competition in the giant Totem (Grey Cup) bonspiel here Tuesday by posting wins in both primary events to remain undefeated.

Lauder's rink, skipped by Tony Gutoski, reached the 32s of the Totem event Tuesday morning by trimming Mel Strickland of Prince George, 9-4, and the quartet continued its fine showing last night by upsetting John French of Vancouver, 8-7, on the strength of a three-ender coming home to gain the 16s of the Evergreen event.

GLYN GRAY OUSTED

French had been one of the nine undefeated rinks going into Tuesday's play at four clubs—the Vancouver, Pacific, Capilano and New Westminster—and had beaten highly-rated Glen Gray of Edmonton in an earlier game.

The two victories yesterday gave Lauder a 6-0 record and the Victoria rink was one of six still undefeated in the "spiel," which has attracted top curlers from all parts of western Canada.

Undeclared were rinks skipped by Bung Cartmill of Vancouver, former B.C. console champion; Garnet Campbell of Avonlea, former Dominion champion; Leo Johnson of Winnipeg, also a former brief champion; Bob Wright of Edmonton and Lloyd Neff of Vancouver.

Tasting their first defeat yesterday, besides French were Rolly Douzich of Edmonton and Burky Scholsky.

SIX IN CONTENTION

Of the 11 Island rinks that started competition six still remained in contention in one or the other primary event.

Lauder, of course, was still alive in both events while George Lunn of Nanaimo had reached the 32s in the Evergreen event, Jack Coates of Parksville and Dr. Kirby Maysey of Victoria were both knocked out of the Evergreen event in draws Tuesday.

In the Totem event Tony Folk of Duncan, Dr. H. A. Bowker of Ladysmith and Coates were still left in the running. Dr. Bowker, who has proved the giant-killer in the "spiel," knocked out Gary Thode, the 1953 Canadian high school champion from Saskatoon in his second big upset to reach the 16s.

Bowker, who has met five tough rinks and won four games, upset former Dominion champion Billy Rose of Sedgewick on Monday. Coates and Folk both won yesterday and also reached the 16s.

Glen Walkey, the fifth Island rink in the running at the start of play Tuesday, was beaten in the third round.

All rinks are still in to of the eight events but a good number will be eliminated from the \$11,500spiel today.

Results of Island rinks in secondary events:

CAPILANO
Folk, Duncan & Bowker, Whiting & Walter, Victoria 10, Cassidy, Vancouver 7.
Duncan & Bowker, Whiting & Walter, Victoria 10, Cassidy, Vancouver 7.
Port Alberni 7.

GREY CUP
McKinnon, Vancouver 13, BCAP, Courtenay 4.
Lunn, Nanaimo 11, Paton, New Westminster 7.
Clare, Vancouver 2, Antoin, Parksville 4.
Murray, Victoria 10, Dick, Vancouver 4.
Mallick, Vancouver 10, Garraway, Victoria 5.
Cowan, Redwiler 9, Doherty, Port Alberni 5.

NEW ORLEANS (UPI) Pittsburgh, a one-time football power, now well on the road back to its former greatness, was picked Tuesday to play in the Sugar Bowl football classic, Jan. 2, and will meet either Georgia Tech, Auburn, Mississippi or Vanderbilt.

Canucks Trip Cougars On Last-Minute Goals

play with Wylie and Pat Egan, tied the count and Wylie scored what proved to be the winner right after the face-off. Maloney slid the puck into an empty net for the clincher after the

Cougars had pulled Pelletier in favor of an extra attacker.

SUMMARY
Victoria—Goal, Pelletier, defence, Milman, Dobson, Bullock. Division, forward, Olson, Marquess, Anderson, Bruen, Kilburn, Strasser, MacKay, Chiappa, Creaseau.

Victoria Cougars slipped four points behind Vancouver Canucks in the battle for first place in the western division of the Western Hockey League last night when the Canucks banged in two goals in the last 44 seconds of play to grab a 4-2 decision at Vancouver.

Playing before a crowd of 2,800, the Cougars held leads of 1-0 and 2-1 but faded badly in the third period when the Canucks, rapped in three goals, George Ford tied the count at 3-15 of the last period, then Wigg Wylie netted at 19:16 and Phil Maloney scored at 19:33 after an overtime period had seemed almost certain.

LATE IN STARTING

The game was an hour and 15 minutes late in starting when the Cougars were delayed by mechanical trouble on their plane and further mechanical difficulties on their trip from the Vancouver airport.

The Cougars, who went down to their second straight defeat and now have lost five of their last six starts, grabbed the lead when Colin Kilburn, left alone in front of Canuck netminder Ray Mikulan, blazed a shot into the rigging.

Bruce Carmichael put Vancouver on the score sheet when he took a pass from Ray Cyr on a three-man break and "flipped" a shot past Cougar goalie Marcel Pelletier.

BATTLED BACK
But the Cougars fought back and took the lead again near the end of the second period when rookie Don Chiupka slapped in a rebound of Bill Davidson's waist-high shot from the blue line. It was Chiupka's fifth goal of the season and his eighth point.

Then the Canucks overtook the tiring Cougars, Ford, on a

Vanouwer—Goal, Mikulan, defence, Ray, Maloney, Ford, Lunn, Wylie, Kilburn, Strasser, MacKay, Chiappa, Creaseau.

Second period—4, Vancouver, Carmichael (Cyr, Bruen) 19:46, 3, Victoria, Chiappa (Davidson) 19:46, Penalties, Walter, Hillman 19:46.

Third period—4, Vancouver, Ford (Wylie, Egan) 19:16, 3, Vancouver, Wylie (Kilburn, Ford) 19:16, 5, Vancouver, Maloney (Lunn, Strasser) 19:33, 2, Davidson 19:33, Penalties, Kahl 19:33, Davidson 19:33, Bullock 19:33.

Referee, Blair Peters, linesman, Jack McGill.

First period—1, Victoria, Kilburn (Anderson) 19:16, 2, Vancouver, Wylie (Kilburn, Ford) 19:16, 3, Vancouver, Wylie (Kilburn, Ford) 19:16, 4, Vancouver, Wylie (Kilburn, Ford) 19:16, 5, Vancouver, Wylie Labor To Present Housing Evidence

By BILL MAVOR

Evidence said to support union charges that high-cost, low-quality homes are being erected for workers at Kitimat may be laid before the provincial government.

Informal discussion on housing and other matters at the aluminum centre was held recently by John McNevin, secretary of the B.C. Federation of Labor and Labor Council (B.C.F.L.), and T.L.C. organizer T.C. Gooderham with cabinet ministers.

Arrangements are being attempted by both trade unions for a full-scale official conference with the cabinet on the Kitimat housing situation. Mr. McNevin is due in Victoria later this week.

District 63 Board Refuses To 'Jump Gun' on By-Law

By FRED FORD

SIDNEY — A suggestion by Trustee G. L. Chatterton that the board of School District 63 "jump the gun" on the school construction by-law and hire architects immediately to prepare plans, was rejected by trustees Monday.

The board agreed, however, to hire an architect to prepare plans of sites and estimate values.

Trustee J. Holms said the board could not legally move on the by-law until Dec. 21.

A three-man committee will be named by Chairman G. F. Gilbert to investigate Trustee Chatterton's proposal.

The board took no action on a suggestion from Sidney to hire a commission that point of view space be planned for administrative staffs of the school and the board.

The board agreed that school bus drivers should undergo physical examinations and have a knowledge of first aid in a move to safeguard children using the vehicles.

The road built by the board to facilitate construction at Mount Newton High School will be named after the school.

YOU'LL ENJOY S.P. TO CALIFORNIA

Two fine trains...One fine time

Fastest and most interesting way to go to California is on one of our two great streamliners—the *Shasta Daylight*, by day, and the *Cascade*, overnight. Travel doesn't come any finer and the fares are surprisingly low.

Both speed daily between Portland and San Francisco with convenient connections to and from Los Angeles and points East. Trains from Vancouver, B.C., and Seattle connect with both at Portland.

The *Daylight* is a luxurious chair car train that gives you a relaxing day of fun and sightseeing—the high Cascades, Mt. Shasta (14,161 feet), the spectacular Sacramento canyon. Features include the unique terraced all-dome lounge car, the dining and coffee shop cars and chair cars with huge "skyview windows."

A night on the *Cascade* is like a gay evening in a deluxe hotel... cocktails, dinner, fun in the "Cascade Club" and then a fine sleep in a really good bed in your own private room.

You'll enjoy a fast, relaxed trip on either of these famous trains.

Students See Professionals Perform

Keen first-nighters at the Royal Theatre last night were student dancers from city and up-island dancing schools. Left to right, front row, are Eva Hobson, Youbou; Leslie Evans, Bonnie Turner, Youbou, hold-

ing programs; Adele Nelson and Barbara Anne Court; second row, Primrose Danby, Jane Ferguson, Youbou, Judy Fraser and Pam Dixon; back row, Olivia Greenwood, Linda Brown and Linda Gowan.

Around Town

Saanich Council Urged To Press For Bus Service

A call on Saanich council to "use its influence with the B.C. Electric" to get adequate bus service for the municipality was made last night by council aspirant Harold Todd.

"There are some areas in Saanich which have no bus service or very poor service," he said. "Many elderly people can't get out at all because of this."

Mr. Todd said residents of Bristow and Blenkinsop plan to petition council for better bus service and "it is to be hoped this petition will get results."

Plans for the improvement and popularization of Meadow Park playground among residents of the Gorge area will be discussed at a meeting in St. Martin's hall, Obed, at 8 p.m. today.

Sponsors of the meeting, the

Engineer Hopes To Stop Sewer

Acting city engineer James Garnett said yesterday he will recommend steps soon to stop a sewer outlet pouring into the Inner Harbor under Johnson street bridge.

The outlet has been blamed as the present chief polluter of the Gorge.

Mr. Garnett said the outlet was designed to carry away only the overflow of interconnected sewers and storm drains in the area, but has been found to be discharging when conditions are normal.

Enlargement of one of the sewers in the area will probably be required, he said.

Mr. David was elected president of the Victoria Federal Riding Association of the Progressive-Conservative party at the annual meeting Monday evening.

Other officers elected were Eric (Chairman, first vice-president); Wing Cmdr. C. J. Holmes, second vice-president; John Fraser, secretary; and Sidney P. Tucker, treasurer.

Dr. Frank Fairley, Victoria

East Indian Progress Cited

The 2,000 East Indians in B.C. have progressed and earned the respect of their fellow men and are entering nearly every profession, Munsha Singh Dukhi, priest of the Victoria Sikh temple, told Victoria Kiwanis Club yesterday.

He compared their lot with the 5,000,000 East Indians scattered around the world as in South Africa, where their position is miserable and their future gloomy because of a systematic anti-East Indian drive, and in other countries where they are tolerated only because their presence is economically essential.

Never Said It Says Bennett

Premier W. A. C. Bennett yesterday denied ever saying the federal government ignored B.C.

"I've never said that," said the premier. "Ottawa can't see over the mountains, that's all."

Rev. Aubrey Murphy, director of Christian education for the Baptist Union of Western Canada, will give a series of four lectures for all Sunday school teachers and superintendents of this area in Emmanuel Fellowship hall Friday to Monday.

Meetings are at 7:30 p.m. each day, except Sunday, when those taking part should be in the hall at Fernwood and Gladstone by 2:30 p.m.

Mr. Murphy will preach in Emmanuel Baptist church Sunday morning and First Baptist Sunday evening.

Hundreds Facing Licence Penalty

Hundreds of persons driving with expired or unauthorized drivers' licences face prosecution in this area if they fall into the road check traps set by police.

In three hours yesterday, 1,000 drivers were stopped on the Patricia Bay Highway. About 20 were licence violators.

Near Goldstream another 150 cars were checked and five improperly licensed drivers found.

The motor vehicle branch estimates 200 drivers a day should be taking out new licences instead of the dozen or so applying.

Malahat Project

Slow Uphill Traffic To Get Extra Lanes

A third lane for slow-travelling vehicles will be constructed on all upgrades on the Malahat. Highway Minister P. A. Gagliardi said yesterday.

The extra slow lanes would be the same as that now used on the new highway at Suicide corner by Goldstream. Mr. Gagliardi said to R. B. Wilson, a member of the Victoria Automobile Club.

The Malahat drive is now being reconstructed from around the entrance to Hall's house to the Malahat summit and the third lane will be provided on hills on this stretch.

Esquimalt Constables End Course

Nine Esquimalt police constables were presented with certificates last night after completing the first basic police training course held in the municipality.

Reeve A. C. Wurtelle said: "The class had 100 per cent attendance. It was conducted by an experienced policeman, Inspector Richard Harvey."

"We hope to have further training courses later on. I hope we shall be able to integrate them with the city and other municipalities."

Two of the nine constables on the course, A. Burton and J. Owens, were promoted to acting corporals, effective Jan. 1. Others attending were Constables B. Savenev, R. Pringle, J. Mayes, K. Hatherley, L. Duncan, W. Dawson and A. Browning.

Endless Rehearsal Hours

Glamor in Ballet Means Hard Work, Sore Legs

By BRUCE LOWTHER

If ballet is glamorous then glamor consists of early hours, late hours, sore legs, missing meals, fairly small salaries and plain, ordinary hard work.

Or take the reasons why leading members of the Royal Winnipeg Ballet took up the trail which led them to Victoria's Royal Theatre for performances under Victoria Kiwanis Club sponsorship last night and tonight.

Bill McGrath, 24-year-old male lead, who lived here for 15 years, went to a Victoria dancing school to meet his "date," and explained: "I decided to try it and just liked it, that's all."

Mrs. Betty Farrally, the company's artistic director, wanted to be a veterinary surgeon, "but my Latin was so atrocious that I failed," and ballet was her second choice.

Certainly the parents of the four chief dancers do not lead anything close to what might be considered glamorous lives.

McGrath's father, Robert McGrath, 33, works in an auto court laundry, Carlu Carter, Mrs. Bill McGrath since last June, is the daughter of a retired doctor.

Water from Sooke Lake Pure; Other Sources Need Chlorine

Welfare Workers Blushing

A city church welfare group is blushing today after being kind yesterday. A coat given a woman was discovered to be owned by a welfare worker—moments after the recipient disappeared from the office. Police have been asked to help locate the new owner.

High Pay Reported For Scabs

Salaries ranging from \$450 to \$1,000 a month were offered "scab engineers" during the strike of powerhouse workers International Union of Operating Engineers (AFL-IOE) said last night.

A union statement said that room and board were also offered in some instances.

The engineers' union on Monday ended a two-week strike of 150 members in 16 Island and mainland mills by accepting 10 cents an hour, retroactive to June 1, but spread over two years.

The union said in its statement yesterday that although the settlement is not entirely to its satisfaction, it feels confident that the union has established identity as a craft union "within the industry against overwhelming odds of employers, and particularly the officials of the International Woodworkers of America."

The union included in the "overwhelming odds" the "few individuals termed scab engineers whose proposed salaries ranged from \$150 to \$1,000 a month."

The settlement was brought about in mediation by government chief conciliation officer, William Fraser.

Production was reported at most normal in most plants affected.

In Victoria, Smith's Cedar Products reopened yesterday, but McCarter's single mill was reported effecting repairs and expecting to produce later this week. These were the only city mills affected.

Atmosphere Secretive—Mackie

At least 40 Victorians are familiar with the difficulties of a weather forecaster after hearing William Mackie at the Victoria North Kiwanis Club last night.

Mr. Mackie, Victoria's weatherman, explained how forecasts are developed, preparation of weather maps and the history of weather forecasting.

Mr. Mackie said, "We know Lake Nipigon near the head of quite a few secrets of the atmosphere, but there are many that remain hidden from us."

Cold Forecast for Today As Storm Crosses Area

Temperatures will be low enough for a little snow as well as rain showers with a Pacific storm crossing this area today.

Strong winds will follow the storm in coastal inlets, the weather office said last night.

Public health records showed yesterday that Mayor Claude L. Harrison must have been talking only about Sooke lake water Monday when he said tests last summer showed it well above the danger point where it needed chlorination.

The mayor said a move could be expected next spring to end chlorination of the Greater Victoria water supply.

Dr. Elizabeth Mahaffy, Victoria-Esquimalt medical health officer, and Elwood Gropp, sanitary inspector, said yesterday that Sooke lake water is of good quality.

But the Greater Victoria water supply also comes from the Goldstream watershed.

Dr. Mahaffy showed figures for water tests at both Hump back reservoir for the Sooke water, and Japan Gulch reservoir, which holds the Goldstream water.

The accepted public health standard, she said, is that if intestinal bacteria are found in more than one test in 10, the water needs chlorination.

Here are sample tests at the reservoirs:

September—Sooke lake water bacteria in one test out of five, at outlet to city main, none out of five; Japan Gulch, one out of five.

October—Sooke lake water, none out of five; at outlet to the mains, through leaks.

'What About Profits'

Decision on Booklet Likely in December

The Greater Victoria school board is expected to reach a decision at its December meeting on what to do about the Chamber of Commerce booklet, "What About Profits?"

The chamber this year asked for and received permission to distribute the booklet to graduating Victoria students. But when the CCF protested, the board withdrew permission and referred the question to the department of education, which disclaimed any responsibility for such a decision.

Monday night the board heard George Wheaton, for the chamber, say that the booklet was "a factual presentation in simple language, explaining the basic factoring of our business system."

It also heard Dr. J. M. Thomas, as an individual, say that the booklet was "a partisan propaganda in keeping with all propagandist literature. It is cleverly designed."

W. P. Joune chairman of the board, said there was too much business on hand for a discussion of the matter at the end of the meeting.

But, he said, the December meeting will be the last meeting of the present board, and "we'll want to clean it up."

But he said, the December meeting will be the last meeting of the present board, and "we'll want to clean it up."

But he said, the December meeting will be the last meeting of the present board, and "we'll want to clean it up."

Seen in Passing

Walter Satsenheffer remembering an anniversary. (Four years ago today he landed in Halifax, a new immigrant. Now he's a lifeguard at the Crystal Garden. Unmarried. Walter's hobbies are classical music, ancient history and travel. He's an accomplished pianist himself. His home is at 143 Government and the former prisoner-of-war recalls with a chuckle how he escaped his Russian captors after only 10 days in their stockades. Comrades those who survived were not released until years later. . . . Flying Officers J. A. Baehr and W. J. Penfold with Sgt. R. W. McCrelland of the RCAF recruiting office having coffee, then signing on the back of the photo hoping their names would be drawn for a free cup today. . . .

Burpee Anderson looking in vain for someone who saw his appearance on a TV sportscast from Seattle Saturday. . . . Cyril Wighman having lunch at the Empress Hotel. . . . Brig. John A. Adam jaywalking on Fort Street into the path of a newsman's car. . . . Dave Laidler casually doing the family shopping. . . . Cy Porter engaged in getting out the latest publicity for the Publicity Bureau. . . . Bev Gillespie saying he thought members of the armed services were tough enough to stand a little snow and cold on Remembrance Day. . . . Reeve Joseph Casey telling about getting back to his office to find 38 slips asking him to telephone various people.

Traffic Head Pleads For Driver Training

City police Sgt. Brooke Douglas, head of the traffic division, made a plea last night for driver training in high schools.

He told the YMCA Young Adult Club that it was already an "accepted thing" in the United States.

"If we are going to attack this accident problem, it is time we began teaching driving skills and correct attitudes to young people," he said.

"The under-25 age group forms 15 per cent of the driving public today—but causes 32 per cent of all accidents."

"Driver training in high schools did get a modest start in Vancouver and the Fraser valley some years ago."

"The sooner it is started again, and gains momentum right across the country, the better."

"I am sure that if students were given the opportunity to take the course, none would grudge \$10 for fees and equipment."

Sgt. Douglas said that until the nation learned the fundamentals of survival on the highway, those involved

Beneath the Tinsel

Hard Work, Sore Legs

The show and possibly parties which prevent the dancers from getting to sleep until 3 a.m.

Said the main problem of the men is gaining weight, but Miss Katronis countered that with the claim that the women worry most about how to lose weight, or about slippery or small stages.

There are compensations, as when Miss Katronis, a beautiful 19-year-old native of Vancouver, was last year named "queen" of a North American moving company.

"I ran into one of the vans once and told them I was their queen," she laughed. "They jumped up and saluted me."

Beauty and You

By MARION MATTHEWS

Question—I've tried dieting, but be quite beneficial and really insidious can follow through until I prove your health. He will check the amount of weight I start your heart and blood pressure out to drop. Can you suggest how and see that your vitamin intake to gain a little will power?

Answer—To control your weight, you must power to stay with a diet. Your mind can help out your reducing diet, especially if it is a diet that leaves you starved most of the time. I suggest that you diet sensibly, keeping on about a 1,000-calorie-a-day intake if you are not too active during the day.

Question—I have been giving myself pin-type home permanents but wonder just how often I should do this? Do you have any idea? The answer is a well-rounded diet and include all the basic foods that make for good health. The first way to diet is simply to eat less food, a little of practically everything, but extremely rich desserts. Having someone to help you through a loss of weight can

Demand Woman Be Appointed To Fill Vacancy

OTTAWA (CP)—A demand that the federal government appoint a woman to fill a vacancy on the three-member Civil Service Commission was made Tuesday by Mrs. Ellen Fairclough, Progressive Conservative member of parliament for Hamilton-West.

Mrs. Fairclough said in a statement that the large percentage of jobs in the civil service which are occupied by men at all levels is a complete disregard of the need for women to be given to such an appointment.

The vacancy resulted from last month's retirement of Charles H. Blind, 69, as commission chairman. He was succeeded by Stanley G. Nelson, 50, of Ottawa, a commissioner for 10 years.

The other member of the commission is A. J. Boudreau, also of Ottawa.

Double-Faced Shawl

BY CAROL CURTIS

TV Talk

By ROY PARRETT

A fairly tale in ballet pantomime narrated by stage and screen star Basil Rathbone, a picturesque underwater effect fantasy, a dazzling variety show spotlighting the master troubadour, Burl Ives, and an original score rendered by the famous Symphonies and Choralists.

the "Thanksgiving Day Festival" to be presented on the CBS TV network tomorrow at 8 p.m. is the United States only.

This year's fairy tale ballet, to be seen on both channels 11 and 12 is a fantasy called "The Sea Princess," an adaptation of an old Danish folk legend with the familiar theme of the conflict between good and evil.

In "The Sea Princess" most of the action takes place under the ocean and tomorrow's presentation features special effects which have been designed to create the illusion of an underwater setting without the hindrance of stunts and puppets.

The program promises to be a highlight of this winter's viewing.

STORYBOOK PARADE Have the kiddies turn to channel 11 at 5:30 tomorrow for the Thanksgiving parade of lights in New York. A two-mile lineup of beautiful, illuminated storybook floats including Snow White, Cinderella, the Six White Horses, and the Magic Carpet and, of course, Santa Claus, his helpers and his reindeer.

WEDNESDAY FIGHT KING-TV states that Vince Martinez, unbeaten in his last 17 bouts, will face his toughest opponent, Donny West, tomorrow night at 8 p.m. on KING-TV.

POLICE DRAMA Farley Granger stars in "Incident in an Alley," the story of a young cop accused of the murder of a woman, on channel 11 at 7 p.m.

SPORTS TALK Best news is that both Hal and Ed will play tomorrow night on KING-TV. Channel 11 will carry tonight's New Westminster Royals-Salt Lake Americans hockey game at 8 p.m.

ANIMAL CLOSEUPS A report of Walt Disney's amazing documentary of "The Olympic Elk" showing the life history of the great elk which lives in this coastal area is the channel 3 feature at 8 p.m.

CANADIAN MUSICAL A program in fast catching on with local viewers is "Cross-Canada Hit Parade," an hour of popular music, on channel 11 at 9 p.m.

WESTERN ADVENTURE The story of Sioux Chief "Crazy Horse" and the terror he spread throughout Nebraska in the early days of the west will be tonight's story of the century on channel 12 at 9 p.m.

COMEDY HOUR A duck begins to lay eggs on channel 12 at 10 p.m. on "The Duck and the Doctor," a comedy hour.

LATE SHOWS Edmund Lowe stars in "Oh, What a Night," on channel 11 at 10:30 p.m.

Channel 12 at 11 p.m. on "The Duck and the Doctor," a comedy hour.

Channel 11 at 11:30 p.m. on "The Duck and the Doctor," a comedy hour.

Channel 12 at 11:30 p.m. on "The Duck and the Doctor," a comedy hour.

Channel 11 at 11:30 p.m. on "The Duck and the Doctor," a comedy hour.

Channel 12 at 11:30 p.m. on "The Duck and the Doctor," a comedy hour.

Channel 11 at 11:30 p.m. on "The Duck and the Doctor," a comedy hour.

Channel 12 at 11:30 p.m. on "The Duck and the Doctor," a comedy hour.

Channel 11 at 11:30 p.m. on "The Duck and the Doctor," a comedy hour.

Channel 12 at 11:30 p.m. on "The Duck and the Doctor," a comedy hour.

Channel 11 at 11:30 p.m. on "The Duck and the Doctor," a comedy hour.

Channel 12 at 11:30 p.m. on "The Duck and the Doctor," a comedy hour.

Channel 11 at 11:30 p.m. on "The Duck and the Doctor," a comedy hour.

Channel 12 at 11:30 p.m. on "The Duck and the Doctor," a comedy hour.

VALUABLE BUILDING SITE FOR SALE

The City of Victoria has now made available for sale Lots A, B and C, Section 4, Victoria District, Plan 3073, and Lots 7 and 8, Section 4, Victoria District, Plan 110.

These lands are within the boundaries of the City of Victoria, and are located on the main highway into the centre of the City, and have an overall frontage on Douglas Street of 401 feet, and on Burnside Road of 460 feet, with an average depth of approximately 700 feet. THE LANDS ARE BEING OFFERED FOR SALE EITHER AS INDIVIDUAL LOTS OR EN BLOC.

Offers will be received for the purchase of the above lands until 5:00 o'clock p.m. on Wednesday, December 7, 1935 and should be addressed to the Municipal Manager, City Hall, Victoria B.C. and marked on the envelope "Offer for Douglas Street Property". Applicants must indicate whether the offer is for the five lots in blue or for which individual lot; and should also state the zoning required for proposed construction on the lands.

2 All offers must be accompanied by a deposit cheque for 10% of amount of offer.
Highest or any offer will not necessarily be accepted.
4 For further particulars apply to Land Commissioner, City Hall, Victoria, B.C.

Daily Astrology
BY RITA DEL MAR
WEDNESDAY, NOVEMBER 23
Today's Quotation: "The sweetest of all sounds is praise." Xenophon.
Wednesday for everyone: Be around home or office; complete tasks, attend to routine and ordinary matters. Watch your step in transit, and where finances and employment are concerned. Take no chances.
Look for your birthdate and birthday below:
March 21 to April 19 (Aries)—Refrain from emotional outbursts. Make minor concessions in order to maintain harmony.
April 20 to May 20 (Taurus)—Caution is called for to avert negative situations. Don't lose your poise. Be co-operative.
May 21 to June 20 (Gemini)—Rule out impulse where business, career interests are concerned. Be diplomatic with higher-ups.
June 21 to July 22 (Cancer)—Keep clear of those who conflict with you, lest there be quarrels. Don't disclose plans.
July 23 to Aug. 22 (Leo)—Take into account the fact that folks are inclined to be touchy and self-control is necessary. Save money, energy.
Aug. 23 to Sept. 22 (Virgo)—Resist the urge to make changes or retoolings. Have no part of questionable ventures.
Sept. 23 to Oct. 22 (Libra)—Allow your interests to progress at their own pace. Protect job, health interests.
Oct. 23 to Nov. 21 (Scorpio)—You gain nothing by being aggressive in romantic, pleasurable matters. Keep expenses for enjoyment down.
Nov. 22 to Dec. 21 (Sagittarius)—Approach obstacles, difficulties with a constructive frame of mind; you can overcome them.
Dec. 22 to Jan. 19 (Capricorn)—Don't lose patience if things move slowly. Postpone making your mind up for a while.
Jan. 20 to Feb. 18 (Aquarius)—Be composed, cautious, economical and you can surmount difficulties that arise. Make entertainment plans inexpensive.
Feb. 19 to March 20 (Pisces)—Try to keep your feelings from causing negative attitudes. Don't force issues.
Planning ahead—Good for sociability, entertaining; etc. November 24, 30.

trumped the second round. West, meanwhile, had played the eight under South's queen. Declarer cashed a high trump and a second high heart, ruffing his last heart in dummy. Next he led a third round of diamonds, trumping in his hand. One more trump lead exhausted East, but South led out his last trump as well and West, who had started with only a single jack and two tens, was squeezed out of the value of even these meager assets. In order to hold the jack of diamonds, covering North's ten, West had to let go a spade. Right from the beginning of the play, South had been counting up the points that made East's no-trump bid. Assuming that West's signal in diamonds had announced the jack, East had shown exactly 14 points. To reach the required 16, he must have the queen of spades. Hence an ordinary spade finesse would surely fail. When West let go a spade on South's last trump lead, North discarded the ten of diamonds. Next declarer led to dummy's ace of spades and played the jack through East's queen. East covered, and South won with the king. As declarer had hoped, West held the ten and it now fell, establishing South's nine for the last and the game-winning trick.

It's the Grey Cup Hop

High-stepping Zena Chivers, Toronto drum majorette who will lead the Grey Cup parade in Vancouver when the east-west football classic is played Saturday, shows Fred Gardiner, chairman of the Toronto metropolitan area council, how to do the Grey Cup Hop. The Toronto contingent, now on its way across Canada, is teaching the Grey Cup Hop to other eager Canadians. It is not reserved for high school or college undergraduates, but is practised by mayors, business tycoons and grandmothers.

Vancouver Bank Robbed

Ex-Football Player Tackles Fugitive

VANCOUVER (CP)—William Antonyshyn, 28, was charged late Tuesday with the afternoon \$400 holdup of a city branch of the Bank of Montreal.

Police said they seized a toy pistol and \$400 in bills from the holdup man who was brought down by bank accountant Tom McNary with a flying tackle.

The former university rugby

Time Bomb Menaces 136 Coeds

AMES, Iowa (UP)—An unexploded dynamite time bomb was found in a 136-coed dormitory at Iowa State college yesterday.

Police said it resembled the type of bomb used to blow up a plane Nov. 1 near Longmont, Colo., killing 44 persons.

Two Resign Posts As Commissioners

Special to the Colonist
CAMPBELL RIVER—Resignations of two village commissioners—Sidney Waterfield and Carl Thulin—were submitted at a meeting last night of the village commission because they felt they were "being unjustly accused of irregularities."

Only Commissioners John Lambie and Charles Granholm—

an insufficient number for a quorum—were present when the resignations were turned in by Village Clerk A. D. Corker.

An unusually large number of spectators was present be-

cause of recent rumors about irregularities involving commissioners.

Although it was not a properly constituted meeting because of the lack of a quorum, Commissioner Lambie addressed citizens gathered in the council chamber.

He said Commissioners Thulin and Waterfield had voted as members of the finance committee on Aug. 8 for payment of village accounts to private firms of which they are members.

The accounts called for payment of \$477.86 to Van Isle Logging Equipment, of which Commissioner Waterfield is a partner, and \$50.40 to Pioneer Hardware, of which Commissioner Thulin is a partner.

These accounts were part of a long list approved by the finance committee at the August meeting.

Commissioner Lambie said: "The Municipal Act states that a commissioner may be a shareholder in a corporation having dealings with the board, but no shareholder shall vote as a member of a board of commissioners on any question affecting the corporation."

Mr. Lambie said he had conferred with J. E. Brown, deputy minister of municipal affairs, and had been instructed in "give them the works."

Talks Follow Colonist Warning

Multi-Million Sewer System Planned For Five Unserved Saanich Areas

British Call Bulganin Hypocrite

LONDON (UP)—The British foreign office called Soviet Premier Nikolai Bulganin a hypocrite yesterday in the strongest blast against the Russians since the disappearance of the "Geneva spirit" born at last summer's summit conference.

The foreign office took off its diplomatic kid gloves to deliver a stinging reply to Bulganin's speech in India yesterday accusing the West of backsliding in the search for peace.

Quit UN, Express Urges U.K.

LONDON (Reuters)—The Daily Express says the United Nations is "an agency for stirring up hostility" and calls on Britain to renounce it.

"When will it be realized that internationalism has failed?" this Empire-conscious, right-wing newspaper asks.

The Express, which has a circulation of more than 4,000,000 copies a day, complains that Britain has had enough trouble from the concerted activities of the present members of the organization, but now it is supporting the entry of 18 more countries. Canada is the sponsor of the package move to admit the 18.

"Has Britain not suffered enough from mischief-making at U.N.O. without widening the field? Yet here is Britain asking for more."

The Express says there would be more trouble from the newcomers "for they include Ireland, who will complain about partition, Spain, who will demand Gibraltar, and Ceylon, who will vote with the anti-colonialists."

Fifth Column New Threat In Britain

LONDON (Reuters)—Britain has a dedicated Communist fifth column with no standards of honor, no patriotism and no possibility of compromise, Lord Astor told the House of Lords Tuesday night.

The 48-year-old Conservative peer was speaking in a debate on the British diplomats Guy Burgess and Donald Maclean, who vanished beyond the Iron Curtain in 1951.

He said it was "remarkable" that the British people had been so slow in realizing the theory and importance of communism.

Lord Astor said: "We have to recognize that, for the first time since the reign of Queen Elizabeth I, we have a fifth column in this country—a fifth column that has penetrated the highest ranks of the civil service, apparently the scientists and even the church."

Brazil Crisis Pending

RIO DE JANEIRO (AP)—Provisional President Nereu Ramos Tuesday night asked congress to declare a state of siege—modified martial law—throughout Brazil.

In a message delivered to the lawmakers as the country apparently weathered its second grave political crisis in two days, Ramos asked that the state of siege be set for a 30-day period—the maximum allowed by the constitution.

The provisional president's request came just a day after Joao Cafe Filho precipitated the latest crisis by attempting to end his sick leave and return to the presidency.

Santa Busy Practicing for His Big Day

It takes practice to handle a group of reindeer, and Santa has to make sure there'll be no delay in his Christmas Eve delivery. So here he is with a "Gee, Blitzen" and "Whoa, Dancer" as

he sits in his sleigh holding the reins and showing all good boys and girls that he intends to visit them soon.—(Central Press Canadian.)

Operation Christmas RCAF To Begin Annual Airlift

LACHINE, Que. (CP)—The RCAF's annual Christmas flights to the Arctic—to such places as Sugluk, Pangnirtung and Eureka—will begin today.

Air transport command headquarters reported Tuesday that preparations and practice parachute drops—started in early November—have been completed.

More than 11,000 pounds of mail, Christmas trees and parcels, fresh rations and emergency equipment will be parachuted to isolated Arctic outposts.

The bundles will be marked by bicycle lights as they hurtle through the continual Arctic winter darkness to lonely men waiting beside blazing oil barrels.

C-119 Flying Boxcars will replace the North Star planes used in previous years, with two squadrons, 435 Edmonton and 436 Lachine, making the deliveries.

The Edmonton squadron operating from Resolute bay on Cornwallis island will make 10 parachute drops in the central Arctic, including supplies to five joint United States-Canada weather stations.

One drop will be made at Alert, Canada's most northerly inhabited spot, at the tip of Ellesmere island, just 400 miles from the North Pole.

The flights are being made a month before Christmas to take advantage of full-moon conditions which will not begin again until Christmas Day—too late to get the presents to the north in time.

Since most of the detachments are visited only once each year by ship or aircraft, usually during the summer months, the men operating Canada's most northerly outposts aren't too particular about the timing.

Morocco Near Chaos

RABAT, Morocco (UP)—A general strike in Casablanca, mob action, a revolt in the wild Rif mountains and the absence of a central government brought Morocco closer to chaos last night.

More than 400,000 Moroccans staged a general strike in the economic capital of Casablanca. Sullen mobs roamed the streets. All industry was shut down. French troops snaked up the bare brown Rif mountains near the Spanish-Moroccan border to put down rebellions by machine gun-toting Berbers.

Nov. 30.

Scalded Baby Died, But Phone Hogs Safe

SACRAMENTO (UP)—A baby lying in the tub with hot water pouring over him, was powerless to prosecute two telephone "hogs" whose refusal to give up a telephone party line delayed for 20 minutes the arrival of medical aid for a scalded baby.

The infant, 18-month-old William Mansker, died.

Mrs. Carroll Mansker, the baby's mother, said she heard the baby scream and rushed into the bathroom to find the telephone.

Finally, the distraught mother called the police and summoned aid over a different line.

Robbed Goering's Safe ...

War Hero Cracksman Gets 10-Year Term

EDINBURGH (UP)—A safe-cracker who turned Commando to open Hermann Goering's Luftwaffe headquarters safe in the Second World War was sent back to jail yesterday for practicing his craft in peacetime.

The skill that brought John Ramsey, 50, the praise of Allied intelligence chiefs 10 years ago to

brought him a 10-year sentence in high court this time.

Ramsey parachuted behind enemy lines many times during the war to blast open safes and lift secret enemy war plans. One of his victims was Goering, the Nazi air chief.

He started his life of crime as a "cat burglar" and progressed to the crowbar and nitro-

glycerine. His skill at blowing safes was so great that he became renowned in both underworld and police circles.

His arrests brought him a total of 30 years in prison. It was during one of these stretches, in 1942, that police suggested Johnny go straight and use his talents toward winning the war.

During the advance on Rome,

Project Will Equal Present Undertaking

By ALEC MERRIMAN

A new multi-million-dollar Saanich sewer system is being mapped by the municipal council and capital region planning board. The Daily Colonist learned last night.

The proposal—possibly as big as the present 80-mile, \$3,000,000 sewer undertaking—probably will be put to ratepayers next year.

The new system would serve areas beyond those expecting sewer service from the current construction program, and would include Cadboro Bay, Marigold and Colquhoun drainage areas, and Rithet park subdivision.

The well-developed urban area immediately north of the existing sewer system in the Shelbourne street district, also would be served.

Coun. Leslie Passmore disclosed that council members had met to discuss the project with planning director Brahm Wiesman about two weeks ago, after a Daily Colonist story warned that "refusal by Central Mortgage and Housing Corporation to grant NHA loans to speculative builders in non-sewered areas is a challenge to Saanich municipality to push forward its sewage program."

Coun. Passmore, who is chairman of the Saanich sewer committee, said "we are quite aware of the problem and know there definitely is need of sewerage disposal service right now."

Coun. Passmore indicated that Saanich would be receptive to a joint sewer expansion program with Greater Victoria.

There is a possibility some joint action might be desirable to have a complete sewerage review for the whole of the Greater Victoria area, with a view to putting in one central disposal plant," he said.

Mayor Claude Harrison two weeks ago said that, if elected, next year he will ask for a new sewage disposal system for Victoria as the Clover point plant has outgrown its usefulness.

Export Sought

Coun. Passmore also disclosed that Saanich is considering hiring a town planning engineer to work with the capital region planning director, especially to take care of Saanich subdivisions, sewer plans, roads and other municipal planning.

This suggestion, he said, will be placed before next year's council.

He said it has not yet been decided what types of disposal plants would be used for the suggested projects.

Unless a Greater Victoria system was decided upon Saanich would probably have a unit for each district—handling disposal on a sewage-farm basis.

"Generally speaking there is no great demand for the sludge as fertilizer and probably no profit would be involved," he said.

It has been estimated that small sewage disposal plants would cost from \$50,000 to \$100,000 each, but this would be only for the plant and not the pipelines.

Reeve Joseph Casey said last night it is "realized certain areas will have to have sewers within a very short period," but he said no sewer projects would be proposed this year.

Coun. S. W. Brock thought new sewer projects should have government financial aid along the lines to be suggested by Saanich in a brief next week to the royal commission on Canada's economic prospects.

Coun. Brock claims hard-pressed, rapidly-growing municipalities need cheap social capital for sewers, roads, water and storm drainage.

He suggests that the inactive Aid to Municipalities Act with \$6,000,000 capital to lend to municipalities at 2 per cent interest should be reactivated and raised to \$100,000,000 available for loans at 2 per cent to municipalities.

Coun. Passmore said that with regard to "the existing sewer situation, while it is disappointing that the project cannot be completed for the original estimated cost, the fact remains that ratepayers of Saanich are getting a decided asset."

One of Cheapest

"Even with the increased costs it will prove to be one of the cheapest sewer installations in B.C.," he said.

"The benefits that are accruing even now are extensive and obvious," he said. "Property values have increased considerably. Vacant lots, which a few years ago were unsaleable at \$250, are now selling for \$750."

Coun. Passmore pointed out that the "multi-million-dollar asset, the Gorge and Portage inlets, is again becoming bacteria-free and next summer will see installation of bathing beaches. Thousands of children and adults will again be able to swim in clean, warm salt water."

"The sewer system is going to cost a little more, but I doubt if there are many ratepayers who would prefer to revert to pre-sewer days," Coun. Passmore said.

He said the existing project should be completed by 1957.

The new schemes, he said, will probably be more expensive because of the necessity of installing sewage disposal plants.

He said there will be regular consultation with the regional planning board to decide the

type and size of sewer project required.

Rithet Consolidated Ltd. is considering building its own sewer project for the projected 2,000-home Rithet Park, but expects that Saanich would take it over at a later date.

James McFarlane, Victoria manager of CMHC, said that for two years it has been policy of the Crown-owned company to insist on sewers wherever possible.

However, he added, the policy referred mostly to speculative builders and "individuals won't be refused a loan because there are no sewers."

Students Defy Police Clubs

NICOSIA, Cyprus (AP)—Jeering students defied police batons and tear gas and swarmed through the streets of Nicosia Tuesday, tossing stones and hand grenades in another round of anti-British demonstrations.

But it was a different story when he was arrested for cracking a safe in Glasgow recently, taking a puny \$45 in cash and \$4.50 in stamps.

The war hero pleaded for leniency, but the law was firm.

"From your conduct and history," the judge said, "you cannot be trusted to abstain from crime."

Brazil Crisis Pending

RIO DE JANEIRO (AP)—Provisional President Nereu Ramos Tuesday night asked congress to declare a state of siege—modified martial law—throughout Brazil.

In a message delivered to the lawmakers as the country apparently weathered its second grave political crisis in two days, Ramos asked that the state of siege be set for a 30-day period—the maximum allowed by the constitution.

The provisional president's request came just a day after Juan Cafe Filho precipitated the latest crisis by attempting to end his sick leave and return to the presidency.

Sir Winston Returns

Bright-eyed and beaming after a two-month vacation in the south of France, Sir Winston Churchill returned to his old home in Downing Street yesterday for luncheon with Prime Minister Eden. There have been growing demands for the old statesman to speak with his world-wide authority from the House of Commons. If he decides to make a speech, it has been reported he will choose his 81st birthday to deliver it—Nov. 30.

Your Paper At Breakfast

Delivery on The Daily Colonist to your home can be started immediately if you telephone 3-4111. At a cost of only \$1.50 a month, a carrier boy will leave a copy of the Colonist on your doorstep before 7 a.m. every day.

Vote Due Next Year

By ALEC MERRIMAN

A new multi-million-dollar Saanich sewer system is being mapped by the municipal council and capital region planning board. The Daily Colonist learned last night.

The proposal—possibly as big as the present 80-mile, \$3,000,000 sewer undertaking—probably will be put to ratepayers next year.

The new system would serve areas beyond those expecting sewer service from the current construction program, and would include Cadboro Bay, Marigold and Colquitz drainage areas, and Rithet park subdivision.

The well-developed urban area immediately north of the existing sewer system in the Shelbourne street district, also would be serviced.

Coun. Leslie Passmore disclosed that council members had met to discuss the project with planning director Brahm Wiesman about two weeks ago, after a Daily Colonist story warned that "refusal by Central Mortgage and Housing Corporation to grant NHA loans to speculative builders in non-sewerage areas is a challenge to Saanich municipality to push forward its sewerage program."

Coun. Passmore, who is chairman of the Saanich sewer committee, said "we are quite aware of the problem and know there definitely is need of sewerage disposal service right now."

Coun. Passmore indicated that Saanich would be receptive to a joint sewer expansion program with Greater Victoria.

"There is a possibility some joint action might be desirable to have a complete sewerage review for the whole of the Greater Victoria area, with a view to putting in one central disposal plant," he said.

Mayor Claude Harrison two weeks ago said that, if elected, next year he will ask for a new sewerage disposal system for Victoria as the Clover point plant has outgrown its usefulness.

Reeve Joseph Casey said last night it is "realized certain areas will have to have sewers within a very short period," but he said no sewer projects would be proposed this year.

Coun. S. W. Brock thought new sewer projects should have government financial aid along the lines to be suggested by Saanich in a brief next week to the royal commission on Canada's economic prospects.

Coun. Brock claims hard-pressed, rapidly-growing municipalities need cheap social capital for sewers, roads, water and storm drainage.

He suggests that the inactive Aid to Municipalities Act with \$5,000,000 capital to lend to municipalities at 2 per cent interest should be reactivated and raised to \$100,000,000 available for loans at 2 per cent to municipalities.

Coun. Passmore said that with regard to "the existing sewer situation, while it is disappointing that the project cannot be completed for the original estimated cost, the fact remains that ratepayers of Saanich are getting a decided asset."

Expert Sought

Coun. Passmore also disclosed that Saanich is considering hiring a town planning engineer to work with the capital region planning director especially to take care of Saanich subdivisions, sewer plans, roads and other municipal planning.

This suggestion, he said, will be placed before next year's council.

He said it has not yet been decided what types of disposal plants would be used for the suggested projects.

Unless a Greater-Victoria system was decided upon Saanich would probably have a unit for each district—handling disposal on a sewage-farm basis.

"Generally speaking there is no great demand for the sludge as fertilizer and probably no profit would be involved," he said.

It has been estimated that small sewage disposal plants would cost from \$50,000 to \$100,000 each, but this would be only for the plant and not the pipelines.

Thousands of children and adults will again be able to swim in clean, warm salt water.

"The sewer system is going to cost a little more, but I doubt if there are many ratepayers who would prefer to revert to pre-sewer days," Councillor Passmore said.

He said the existing project should be completed by 1957.

The new schemes, he said, will probably be more expensive because of the necessity of installing sewage disposal plants.

He said there will be regular consultation with the regional planning board to decide the type and size of sewer project required.

Rithet Consolidated Ltd. is considering building its own sewer project for the projected 2,000-home Rithet Park, but expects that Saanich would take it over at a later date.

James McFarlane, Victoria manager of CMHC, said that for two years it has been policy of the Crown-owned company to insist on sewers wherever possible.

However, he added, the policy referred mostly to speculative builders and "individuals won't be refused a loan because there are no sewers."

One of Cheapest

"Even with the increased costs it will prove to be one of the cheapest sewer installations in B.C.," he said.

"The benefits that are accruing even now are extensive and obvious," he said. "Property values have increased considerably. Vacant lots, which a few years ago were unsaleable at \$250, are now selling for \$750."

Coun. Passmore pointed out that the "multi-million-dollar asset, the Gorge and Portage Inlet, is again becoming bacteria-free and next summer will see

Robbed Goering's Safe . . .

War Hero Cracksman Gets 10-Year Term

EDINBURGH (UP)—A safe-cracker who turned Commando to open Hermann Goering's Luftwaffe headquarters safe in the Second World War was sent back to jail yesterday for practicing his craft in peacetime.

The skill that brought John Ramsey, 30, the praise of Allied intelligence chiefs 10 years ago

brought him a 10-year sentence in high court this time.

Ramsey parachuted behind enemy lines many times during the war to blast open safes and lift secret enemy war plans. One of his victims was Goering, the Nazi air chief.

He started his life of crime as a "cat burglar" and progressed to the crowbar and nitro-

glycerine. His skill at blowing safes was so great that he became renowned in both underworld and police circles.

His arrests brought him a total of 30 years in prison. It was during one of these stretches, in 1942, that police suggested Johnny go straight and use his talents toward winning the war.

Allied leaders wanted a look at secret Axis withdrawal plans. Johnny parachuted behind the lines, cracked the enemy commander's top secret safe and came back with the blueprint.

His real hour of triumph came, however, when he got into Luftwaffe headquarters and cracked Goering's massive safe.

. . . Then Tried Glasgow

But it was a different story when he was arrested for cracking a safe in Glasgow recently, taking a puny \$45 in cash and \$150 in stamps.

The war hero pleaded for leniency, but the law was firm.

"From your conduct and history," the judge said, "you cannot be trusted to abstain from crime."
